

Britons Racked With the Fear That the Germans May Invade Their Kingdom.

STRENGTHENING COAST DEFENSES TO PREVENT INVADERS LANDING.

Indications Are Multiplying That John Bull Has Come to the Point of Taking the War Very Seriously.

Even the Women Are Forming Volunteer Corps to Resist Like Boadicea to the Last If Bad Should Come to Worst—Young Men at Work by Day Are Being Drilled and Trained in Military Affairs Half Through the Night.

BY EDWARD PRICE BELL.
(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.)

LONDON, Sept. 7.—Remote as seems the possibility of a German invasion of England, preparations for such a contingency are proceeding ceaselessly. It is but one of innumerable indications of how seriously the English are taking the war. Every respectable young man in the country is doing something to safeguard the nation. Those not already in the army or preparing to enlist are performing civil duties. Virtually every motorcyclist gives part of his time to the national service. I know young men doing regular work who devote half the night to guard duty. Coast defenses are becoming stronger every day against attack from sea or air.

Nor do the women folk confine themselves to sewing shirts, knitting socks, making bandages and attending the wounded. Mrs. Haverfield, the wife of a British officer, for instance, is forming a woman's volunteer corps for home defense. The members of the corps are drilling, rifle shooting and route marching.

"At the eleventh hour," said Mrs. Haverfield today, "it will be too late to organize anything. The War Office

thus far does not encourage us, but when the Germans come—if they come at all—we can place at the disposal of the War Office an enthusiastic and capable body of women. At a little theater I am registering the addresses of horsewomen from all parts of the world, and in twelve hours I could mobilize 200 women capable of taking over the management of a regiment of cavalry or a mounted infantry unit, thus replacing the men called to the front.

"I learned in South Africa what women can do in time of war. My husband was an officer in that war and we were stationed at Ladysmith in the lesser Karoo district. Columns of German troops passed through leaving hundreds of wounded behind. I attended these horses with the assistance of five Kaffirs. The horses were pitiable objects.

"Some had gashes in their sides filled with maggots, and others were limping on three legs. Without veterinary knowledge, I speedily became efficient in dressing wounds, could dress seventy between breakfast and lunch."

BELGIAN REFUGEES.

Belgian refugees are fleeing homes

in all directions in Great Britain. In some instances working people with five or six children of their own find room for one or more Belgian boys or girls. The Belgians attract tender and amused interest on the streets. The men are bushy-bearded, the women sad and timid, and the little ones big-eyed and curious.

An English girl and a Belgian man fell into conversation as they were seeking the same bus. The man spoke English and she elbowed a way through the crowd for the girl. When the conductor demanded fares the man drew out his elastic shoe boots, rolled down a sock, exposed a length of bare leg, and extracted his purse. He said that he left Belgium the day after the Germans occupied Brussels and that it took him sixty-three hours to reach London. He had seen German papers describing atrocities alleged to have been committed by the English on German prisoners. The English were represented as gouging out the eyes of German spies when they did not compel them to dig trenches and help in the trenches. The Germans are reported to be sounding the French on the subject of peace apparently in the hope of separating them from the English.

On the other I shall adopt the most stringent measures as soon as the above conditions are not observed. In this respect I shall hold the hostages in the first instance responsible. Besides this, every citizen will be shot who is found with a weapon in his hands, or committing any act whatever hostile to our troops.

Finally, the entire city is responsible for the deeds of every individual citizen and the citizens will do well to keep mutual oversight over each other, in order that they may avoid the unpleasant consequences that must follow upon co-operation with the enemy."

As a consequence of non-observance of such proclamations, a number of villages on the French frontier have been burned and the inhabitants severely punished.

Declaration.

BRITISH CRUISER IS STRANDED; FIGHT IN BOSPHORUS INDICATED.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Sept. 7.—The stranding of the British cruiser Warrior, reported to the German Embassy today in a wireless message from Berlin, remained a mystery to-night. The message read:

"British cruiser Warrior stranded probably as a result of fight with cruiser Goeben while escaping from the Bosphorus."

The Goeben is a German vessel, which, with the Breslau, escaped from British pursuers at the time the war began and sought refuge in the

Dardanelles. Later the ships were said to have been sold to the Turkish Government.

Diplomats were at a loss to explain the Berlin message. They believed it impossible that the Warrior, which had been attempting to escape from the Bosphorus, as Turkey has mined the straits and the ships would not have entered. Had the Goeben been allowed to go out and engage the Warrior, it was said, it would be a direct violation of neutrality by the Turkish Government. If the ship still flies the German flag and virtually a declaration of war on this point, if the Goeben is under the Turkish

flag it would have been an act of war.

A message from Constantinople to a Russian Bey, Turkish Ambassador, contained no mention of the Warrior, and the Ambassador said it was exclusively proved that no declaration of war had been made, though he could not give out the text.

British officials here were keenly interested in the Berlin report, although it aroused no surprise. Great Britain has been expecting a declaration of war from Turkey, it was said, for many days. The Embassy, however, had no official information as to the Warrior.

BRITISH CRUISER IS IN FULL CHASE OF THE NUERNBERG.

(BY PACIFIC CABLE.)

HONOLULU (T. H.) Sept. 7.—The Matson Navigation Company's steamer, which was reported to have been captured by the Nuernberg, was today in full chase of the German vessel. The Nuernberg is a small cruiser of only 2450 tons and is overhauled, would have no show with even an armored cruiser. Her main battery consists of ten 4.1-inch rifles.

It is believed here that the Australian cable to British Columbia was cut by the Nuernberg.

There is a rumor on the beach today that the Union Steamship Company's Australian line steamer Niagara, bound from Sydney for Van-

couver, had been captured by the Nuernberg.

Apparently it had been in the fact that when the Nuernberg was last seen she was short of steam and had fresh vegetables aboard, although Capt. Schoenberg said he had captured the ship since leaving Honolulu thirty-five days before.

The Niagara is overdue and has not been reported. She is a triple-screw vessel of 15,415 tons.

BRITISH FREIGHTER ENTIRELY STRIPPED BY THE LEIPZIG.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Sept. 7.—The British freighter Cetina, under charter to the German government, was stripped of her wireless by the German cruiser Leipzig on August 5 off Magdalena Bay, Lower California, and her cook, a German, and other German reservists were taken aboard the Leipzig. This was the word brought by Capt. McKim, commanding the Cetina, which arrived here today. The Cetina left here July 24 laden with 160 tons of coal consigned to the Leipzig. The two vessels met in Magdalena Bay and the Leipzig was coaled on August 4, the day war was declared.

Not until some time later, through Rear-Admiral Howard, at Massillon, commanding the American Pacific fleet, did the Cetina learn that war

had been declared. Coming north, the vessel was three miles off limit.

THE LEIPZIG'S CARRIER.

SEATTLE, Sept. 7.—The German cruiser Leipzig, which has not been seen since she was captured by the Cetina off Cape Mendocino, Cal., is believed to be working her way to the Atlantic coast by way of the Gulf of Mexico. She can obtain coal and shelter there, and if chased into port by a superior force she can dismantle and tie up the coast Admiral's Admiralty has positive information that the Leipzig has left the North Pacific, and to show its feeling of security it has changed its charter of the fast Grand Turk steamship Prince George, which was used as a scout ship when it was feared the Leipzig was bound north. Transports are reported to be on the

Pathfinder.

MINE DESTROYS BRITISH CRUISER, SHIP'S BIBLE IS FOUND INTACT.

(BY ATLANTIC CABLE AND A. P.)

LONDON, Sept. 6 (delayed).—It is learned on reliable authority that the captain and fifty of the crew of the British cruiser Pathfinder, which was sunk by a mine in the North Sea, have been saved.

The destruction of the Pathfinder occurred about 4 o'clock Saturday afternoon at a point ten miles northeast of Saint Abb's head, Scotland. While she was patrolling the coast the cruiser struck a mine, which exploded near her magazine. Travelers ten miles distant felt the shock. From Eyemouth, fourteen miles from the scene of the explosion, a huge cloud of smoke was visible on the horizon. A torpedo-boat destroyer was sent to the rescue. She was followed by the Saint Abb's motor lifeboat. The Pathfinder was literally blown to pieces and the sea was strewn with wreckage.

The devastating effect of the explosion is emphasized in the report of Captain Nobil of the Saint Abb's motor lifeboat. He said that for a mile and a half the water was strewn with wreckage of every description. There was little felt the pleasure of the debris he found floating a ship's Bible and collections of personal articles from the ship's cabins.

About ninety of the crew of the Pathfinder, dead and wounded, were

picked up by torpedo boats and taken to a hospital at the naval base. Capt. Leake and several other officers were saved. According to official announcement, the casualties among the officers were one killed, eight missing, one seriously wounded and one slightly wounded.

An eyewitness, describing the sinking of the cruiser, said:

"In less than a minute after the explosion we saw the smoke of two vessels and suddenly two torpedo boats came into view, tearing through the water. We tried to attract their attention, but they made straight for the scene of the wreck. I don't know how any wireless operator could have sent a message from the cruiser, as there seemed to be no time for anything. The ship's back must have been broken and the two minutes following the explosion and before she sank must have been terrible. But somebody seems to have kept his head and a wireless message was sent out. Three other destroyers soon arrived. One appeared to have men standing by the guns and on the outlook for submarines.

The skipper of a trawler, who witnessed the blowing up of the Pathfinder from a distance of three miles, later reached Berwick. He said:

"I was on deck and the men below were getting a meal when our vessel was suddenly shaken. I turned in the direction of the report and saw the cruiser in a perpendicular position amid a mountain of smoke, water and steam. Her stern was

uppermost. She poised thus only a moment and then came another explosion and the Pathfinder was practically blown to atoms. She went down in less than four minutes from the time she struck the mine. The work of rescue began immediately, and within an hour there were on the scene five destroyers, four trawlers and six steam drifters.

We picked up all the survivors who could find and then remained a long while searching amid the wreckage. So terrible was the explosion that only one piece of wreckage was found large enough to support the weight of a man."

The Pathfinder flew the pennant of Capt. Francis Martin Leake, whose ancestor was admiral of the fleet and First Lord of the Admiralty in the time of Queen Anne. The cruiser had a displacement of 2800 tons. She was slightly smaller than the British cruiser Amphion, which was sunk in the same manner on August 6. Apparently the Pathfinder was on the same sort of duty as the Amphion, being the parent ship of a flotilla of destroyers in Scottish waters.

The Pathfinder was built for scout purposes and was very fast. She entered the service last July and was reported a short time ago as having engaged a German cruiser.

The Admiralty is not alarmed by the fate of the cruiser, as they expect such incidents and are taking steps to reduce their number. It is now believed that the Germans are using trawlers and other fishing boats to plant the mines.

THE VICTOR'S ORDERS TO THE CONQUERED.

(SPECIAL A. P. CORRESPONDENCE.)

BERLIN, Aug. 26.—The commanders of the German troops are issuing a proclamation to the inhabitants of every hostile town they occupy, as follows:

"Citizens—A body of the German army under my command has occupied your city. Inasmuch as the war is carried on only between the armies, I guarantee in due form the life and private property of all the inhabitants under the following conditions:

"(1) The inhabitants must strictly avoid every hostile act against the German troops.

"(2) Food and forage for our men and horses are to be furnished by the inhabitants. Every such delivery will be paid for at once in coin, or a receipt will be issued, to redeem after the termination of the war.

"(3) The inhabitants are to house our soldiers and horses in the best manner and to keep their houses lighted at night.

"(4) The inhabitants are to put the roads in a passable condition, to remove all obstacles erected by the enemy, and to give the best support to our troops in order that they may be able to fulfill their task, doubly difficult in a hostile land.

"(5) It is forbidden to collect in crowds on the streets, to ring the bells or to communicate with the enemy in any way whatever.

"(6) All weapons in possession of the inhabitants are to be handed over at the town hall within two hours.

"(7) The Mayor, the clergymen, and four well-reputed citizens are to appear before me at once to act as hostages during the stay of the troops. Under these conditions—I repeat it—the lives and private property of the inhabitants are perfectly secure. The strict discipline to which our soldiers are accustomed renders it possible that no inhabitant will be compelled to neglect his business affairs, or to desert his home and hearth.

"On the other I shall adopt the most stringent measures as soon as the above conditions are not observed. In this respect I shall hold the hostages in the first instance responsible. Besides this, every citizen will be shot who is found with a weapon in his hands, or committing any act whatever hostile to our troops.

Finally, the entire city is responsible for the deeds of every individual citizen and the citizens will do well to keep mutual oversight over each other, in order that they may avoid the unpleasant consequences that must follow upon co-operation with the enemy."

As a consequence of non-observance of such proclamations, a number of villages on the French frontier have been burned and the inhabitants severely punished.

Declaration.

On the other I shall adopt the most stringent measures as soon as the above conditions are not observed. In this respect I shall hold the hostages in the first instance responsible. DOOTH GERMAN FLANKS TURNED BY THE ALLIES.

Men Under the Crown Prince Reported Cut to Pieces in Bloody Battle.

Conflict to Determine the Fate of Paris Extends Over a Line One Hundred and Twenty Miles Long—London "News" Dispatch Credits an Important Victory to Gen. Pau—Crown Prince Said to Have Met Defeat.

(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.)

LONDON, Sept. 7.—Both flanks of the German army have been turned—that of the east by French troops under Gen. Joffre and that of the west by the British under Sir John French, according to unofficial dispatches received here. It is stated, however, that both French and German armies are in positions, in which defeat would be absolute disaster.

The conflict extends over an irregular line 120 miles from east to west and fifty miles north to south. The retreat of Germans from Lille is declared to be due to their fear of attack from an army of British and Russian forces believed to have been landed at a point on the English Channel. The troops engaged number more than 4,000,000, the Germans having 2,000,000 soldiers in

JAPANESE ADVANCE SLOW AGAINST GERMAN FORTS.

First Body of Troops Makes Only Ten Miles in Two Days Through Chinese Province of Shantung Toward Kiaochow—Artillery Turns Back to Lung Kow Because of Swollen River, Which Cannot Be Crossed.

[BY PACIFIC CABLE.]

WEN HUIEN (Shantung Province, China), Sept. 7.—Reports have been received here that the Japanese advance guard of 3000 men, which is proceeding against the German territory of Kiaochow from Lung Kow, has succeeded in covering only ten miles in the last two days because of the very poor condition of the roads in Shantung province. At this instance they came to a swollen river. The artillery cannot cross, and the guns are now being moved to Lung Kow.

The Japanese troops are now in the vicinity of Lung Kow. The German army is in a critical position. The Japanese are advancing slowly against the German forts. The German army is in a critical position. The Japanese are advancing slowly against the German forts.

Whatever happens, the German army is in a critical position. The Japanese are advancing slowly against the German forts. The German army is in a critical position. The Japanese are advancing slowly against the German forts.

Paris Reports Victory.

(Continued from First Page.)

that a number of neutral steamers, filled with passengers, have been sunk. With Germany supreme on land it would be necessary to make peace; but under more favorable conditions for Germany than now could be made. For Germany would be lion shore and England the shark at sea. Neither could get at the other.

HOW THE BATTLE WAS DEVELOPED.

[BY ATLANTIC CABLE AND A. F.] PARIS, Sept. 7, 4:30 p.m.—From official communications given out in Paris today it is learned that engagements which began Saturday and Sunday to the east and west of the French capital developed today into one of the most important battles of the campaign. The armies of the allies are opposing the German advance over a front extending for about 120 miles from Nanteuil-le-Haudouin, thirty and forty miles east of Paris, to the great fortress of Verdun, in the Department of Meuse and twenty miles west of the German frontier.

THE OFFICIAL NOTICE.

The text of the official notice is as follows: "A general action has started on the line through Nanteuil-le-Haudouin, Meaux, Soissons and Vitry le Francois, and extending to Verdun. 'Thanks to the victorious action of our troops, strongly supported by the British, the Germans started retreating. The Germans had advanced Saturday and Sunday in the direction of the frontiers of the German army in the vicinity of Meuse, Galicia, have been completely destroyed.'

FRENCH WELL SUPPORTED.

The French troops were strongly supported by the British soldiers who passed through Paris several days ago. The position chosen by the allied forces to give battle to the advancing invaders is declared to be most favorable, having near it the most strongly entrenched camp at Chalons-sur-Marne. The allies conducted their operations so successfully that the portion of the German army which was the most likely additions to the list, though the form they would take was in doubt.

STAMP TAX.

Thus far the plans of the Ways and Means Committee have been on a basis ignoring a stamp tax, but if agreement can not be reached on a stamp tax, the committee will yield \$25,000,000 in addition to the \$75,000,000 already tentatively provided for. The stamp tax is a tax on stamps. It is a tax on stamps. It is a tax on stamps.

RESERVISTS' FAMILIES.

Exodus of Breadwinners to Europe Reported Cause of Much Hardship. (BY A. F. NIGHT WIRE.) WASHINGTON, Sept. 7.—With the pinch of poverty tightening among families left in the United States when thousands of European reservists hurried away to war, government officials today found themselves left without means of offering aid. The problem of relief would have to be handled, it was declared today, by State and local governments through public subscriptions and by such help as the warping governments found themselves able to extend.

ONE MAN'S OPINION.

Lieut.-Col. Rousset, military critic of La Liberté, said that the German army had placed themselves in a position which might become hopeless in case they suffered a check. In the fighting the German forces have their backs toward the capital. French troops are harassing their march. From time to time the Germans turn and engage in the battle. The French army is in a critical position. The German army is in a critical position.

RED CROSS ORDERS.

The Red Cross surgeons and ambulance corps in Paris received instructions that when they heard firing to go in the direction of Verdun. They left the city in the evening and following the sound of the cannonading reached the front lines. They passed beyond them until they were within the zone between the armies. They picked up some wounded Arabs who had been pressing in pursuit of the Germans. Following a trail afforded by the smoke from burning farmhouses, the physicians encountered a French patrol, who said between 250 and 300 wounded Germans were in a ruined church close to the German line and attended by a single German surgeon and two nurses.

Meaux is twenty-two miles east of Paris and Soissons is about fifty-five miles east of the capital. Soissons is also twenty-five miles southwest of Epernay. Vitry le Francois is on the right bank of the River Marne, and twenty-five miles southwest of Verdun. Coulommiers is in the department of the Seine and Marne, thirteen miles southeast of Meaux and thirty miles easterly from Paris. La Ferté Gaucher is ten miles east of Coulommiers and about forty miles to the east of Paris. Nanteuil-le-Haudouin is twenty-two miles east of the city of Paris and ten miles southeast of Senlis. The distance from Nanteuil-le-Haudouin to Verdun is, roughly, 120 miles.

Before the official announcement was made, newspaper dispatches from both Berlin and London indicated that engagements of tremendous importance were being fought in the district described by the French War Office. The Berlin correspondent, whose dispatch was dated last Friday, said that a great battle was being waged on the French front from Bethel to Verdun. A message from London early today expressed the common belief in England that a decisive battle was being fought near Verdun. An attack on Nancy was reported yesterday and it was said that Emperor William was with the attacking army.

EMBASSY'S ADVICES.

WASHINGTON, Sept. 7.—A dispatch received today at the French Embassy from Bordeaux says: "On the 5th of September the north-south movement of the German armies has continued. Coulommiers and Epernay are the bases of the first German army. This army was attacked by us at Saint Soupples, on the right bank of the River Ourcq. Senlis was evacuated by us. On the road Mont Mirail to Chalons the second army has sent its advance guard. As for the third and fourth, the heads of their column are on the road from Chalons to Bussy."

The line of the fifth army has reached the road the Pommereuse, Traincourt and Thiancourt, moving through the Argonne. Our twentieth corps was fighting at Gerbeville against the sixth German army."

TAX ON MOVIES LOOKS LIKELY.

War Revenue Bill Discussed as Congress Reassembles.

Gasoline and Automobiles Seriously Considered.

Beer Sure to Be Hit and the Cheerful "Pop."

[BY A. F. NIGHT WIRE.] WASHINGTON, Sept. 7.—Following a brief Labor Day recess, the first of the prolonged session, Congress will resume work tomorrow, chief interest centering in the emergency revenue bill to raise \$100,000,000. The House Ways and Means Committee hopes to agree upon commodity tax by Thursday at the latest, and Representative Underwood, chairman of the committee, believes the House can pass the bill by Saturday night.

"SURE THING." Informal conferences today resulted in no definite understanding as to what commodities should be taxed other than beer, proprietary preparations and auto drinks. Committee members will insist that gasoline should be taxed and that the arguments against it are not well-founded. They do not believe that farmers and small manufacturers who use gasoline would make any serious complaint.

THE MOVIES, TOO. Several members of the committee are still insistent that an additional tax should be levied on distilled liquors, and the question will be decided by a record vote in the committee. Taxes on automobiles and moving pictures appeared tonight the most likely additions to the list, though the form they would take was in doubt.

STAMP TAX. Thus far the plans of the Ways and Means Committee have been on a basis ignoring a stamp tax, but if agreement can not be reached on a stamp tax, the committee will yield \$25,000,000 in addition to the \$75,000,000 already tentatively provided for. The stamp tax is a tax on stamps. It is a tax on stamps. It is a tax on stamps.

RESERVISTS' FAMILIES. Exodus of Breadwinners to Europe Reported Cause of Much Hardship. (BY A. F. NIGHT WIRE.) WASHINGTON, Sept. 7.—With the pinch of poverty tightening among families left in the United States when thousands of European reservists hurried away to war, government officials today found themselves left without means of offering aid.

ONE MAN'S OPINION. Lieut.-Col. Rousset, military critic of La Liberté, said that the German army had placed themselves in a position which might become hopeless in case they suffered a check. In the fighting the German forces have their backs toward the capital. French troops are harassing their march. From time to time the Germans turn and engage in the battle. The French army is in a critical position. The German army is in a critical position.

RED CROSS ORDERS. The Red Cross surgeons and ambulance corps in Paris received instructions that when they heard firing to go in the direction of Verdun. They left the city in the evening and following the sound of the cannonading reached the front lines. They passed beyond them until they were within the zone between the armies. They picked up some wounded Arabs who had been pressing in pursuit of the Germans. Following a trail afforded by the smoke from burning farmhouses, the physicians encountered a French patrol, who said between 250 and 300 wounded Germans were in a ruined church close to the German line and attended by a single German surgeon and two nurses.

Meaux is twenty-two miles east of Paris and Soissons is about fifty-five miles east of the capital. Soissons is also twenty-five miles southwest of Epernay. Vitry le Francois is on the right bank of the River Marne, and twenty-five miles southwest of Verdun. Coulommiers is in the department of the Seine and Marne, thirteen miles southeast of Meaux and thirty miles easterly from Paris. La Ferté Gaucher is ten miles east of Coulommiers and about forty miles to the east of Paris. Nanteuil-le-Haudouin is twenty-two miles east of the city of Paris and ten miles southeast of Senlis. The distance from Nanteuil-le-Haudouin to Verdun is, roughly, 120 miles.

Before the official announcement was made, newspaper dispatches from both Berlin and London indicated that engagements of tremendous importance were being fought in the district described by the French War Office. The Berlin correspondent, whose dispatch was dated last Friday, said that a great battle was being waged on the French front from Bethel to Verdun. A message from London early today expressed the common belief in England that a decisive battle was being fought near Verdun. An attack on Nancy was reported yesterday and it was said that Emperor William was with the attacking army.

EMBASSY'S ADVICES. WASHINGTON, Sept. 7.—A dispatch received today at the French Embassy from Bordeaux says: "On the 5th of September the north-south movement of the German armies has continued. The line of the fifth army has reached the road the Pommereuse, Traincourt and Thiancourt, moving through the Argonne. Our twentieth corps was fighting at Gerbeville against the sixth German army."

FAMOUS SQUADRON BADLY DEFEATED.

[BY ATLANTIC CABLE AND A. F.] LONDON, Sept. 7.—A Petrograd dispatch to the Daily Mail, dated Sunday, says that the Russian fleet reports that a squadron of Death-Head Hussars, of which the German Prince would command during his stay at Danzig, was defeated and completely cut up near Roccocin, in Poland. Count Stolberg, the commander of the squadron, and all the other officers were among the fallen. The sale of spirituous liquors has been prohibited for the duration of the war, according to a Petrograd dispatch to the Reuter Telegram Company.

Official reports from Russia state that Russian troops are gradually surrounding Pzemsyl, which will soon either surrender or be taken by assault. Pzemsyl is a strong fortress fifty miles west of Lemberg, and its fall would mean the loss by the Austrians of the last stronghold in Galicia. It would clear the way to an advance of the Russians westward towards the junction of their forces on the East Prussian frontier.

The correspondent of the Times at Petrograd, under date of Sunday, referring to a battle just begun, which, as successful as the Russian operations against Lemberg, will overthrow the Austrian forces and practically open the road to Berlin, says: "Reliable information as to the progress of the battle enables me to state that the outlook is no whit less promising, but that several days may elapse before the final overthrow of the Austrian army."

"On the East Prussian front there is news of the appearance of part, if not the whole, of the Third Army corps, between Ghenet and Antwerp. Today all telegraphic and railroad communication between these towns is interrupted."

Several hotels in Ostend are closed for fear of the arrival of the German invaders. An engagement occurred Sunday at Cordegem, south of Ghent. Belgian cyclists and gendarmes had a sharp engagement with the enemy which resulted in the Belgians retreating before a superior force. A Belgian major was killed.

Empress Goes to Danzig. [BY ATLANTIC CABLE AND A. F.] LONDON, Sept. 7, 10:10 a.m.—A dispatch to the Central News from Copenhagen, dated Sunday, says it is stated that the German Empress started Sunday for Danzig.

ENGLISH WATCH SCANDINAVIANS.

Attitude of the Peninsula of Great Importance.

Norwegians Are Reported to Favor the British.

Sweden in Position to Give Germans Needed Food.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Sept. 7.—British officials are watching the attitude of Norway and Sweden in the present crisis with great interest. Travelers returning to London from the Scandinavian peninsula say it is evident that the Norwegians quite generally sympathize with Great Britain, the feeling being that the English navy offers protection to Norwegian interests.

The Dagen Nyheter, a radical journal of Stockholm, in its issue of September 6, says the success of the press disproportionately, although the partiality of the Swedish press is now admitted.

EVIDENCE WEIGHED.
After examining the German and English white books, the editor of the Dagen Nyheter says:

"It is impossible to say that Great Britain, France and Belgium desire did all they could to avoid it. Undoubtedly, Austria and even Serbia which played the principal parts. It is still uncertain whether the ultimatum delivered by Austria to Serbia, but these diplomatic

documents give evidence that it was Germany who opposed Sir Edward Grey's proposal for a conference in London.

"In conclusion, this paper says: 'Sweden, as a source of food supplies for Germany, hold a strategic position.'

ITALY AND SPAIN.
A dispatch to the Chronicle from Bordeaux says:

"Much attention is being paid here to the possible inclusion of Italy and Spain in the number of countries at war.

"The strained relations between Italy and her former allies have been greatly aggravated in the last three days, while in spirit, it is said, public opinion is becoming more insistent for a declaration in support of Great Britain and France."

War Time.
LABOR MARKET IN ENGLAND.

GROWTH OF UNEMPLOYMENT REACHES ITS MAXIMUM.

Prices of Food Are Stated to Show Little Change, Meat and Fish Arriving in Almost Normal Quantities—Recruiting Is Said to Proceed Rapidly.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Sept. 7.—A return issued by the Board of Trade tonight shows that growth of unemployment has virtually stopped. In the trades where insurance against unemployment is enforced the percentage of employment is 6.4—almost exactly the same as last week, and compared with 2.84 last year.

The number of persons seeking employment at labor bureaus actually has fallen off, but still is about double what it was a year ago. Recruiting, which is proceeding at an amazing rate, accounts somewhat for this, particularly in the north and in the mining camps. Recruits are applying in such numbers that at some places it has been decided to close the recruiting offices for a week.

Prices of food show little change and meat and fish are arriving in almost normal quantities. The latter were in short supply at different points of the country.

The saloons of London are closed hours earlier than usual. At Hull, Chatham and other places, where many saloons are closed, there have been closed entirely while in provincial towns the hours for remaining open have been reduced.

REFUGEES REACH BRITISH CAPITAL.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Sept. 7.—One hundred and sixty-five Americans, the greater number well-to-do women, arrived here today from Weymouth, where they were landed by the American cruiser Tennessee. They are the last night aboard the cruiser because of a lack of accommodations on shore. They are a fine lot of the country and spoke highly of the comfort and service of the ship and the attention of the officers and crew.

Among the 160 Americans who crowded the rooms of the American Relief Committee when it opened its doors were Americanized Germans, who are virtually without money and who must be assisted back to the United States. Refugees from Germany say there is still a large number of American citizens in Germany who are unable to get out because of the violent action of the committee merely gave applicants enough money to buy something to eat and a ticket, which will be presented in the day to the French committee for further help.

A large proportion of the refugees who are applying to the committee for relief are absolutely penniless. A fine line across the channel and a few more miles to the coast and the committee merely gave applicants enough money to buy something to eat and a ticket, which will be presented in the day to the French committee for further help.

COL. W. E. GORDON AMONG MISSING.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Sept. 7, 9:45 p.m.—Col. W. E. Gordon of the Gordon Highlanders, who won the Victoria Cross in the South African War, is among the officers who are reported missing in France. Col. Gordon gained the Victoria Cross by leading a party of heavy fire and attaching a rope to a gun which was in danger of being captured. He was killed by a bullet wound in the back, and was found wounded in trying to drag it to safety.

CABLE IS CUT TO AUSTRALIA.

(BY A. P. NIGHT WIRE)
VANCOUVER (B. C.) Sept. 7.—The Vancouver-Australian cable has been cut between the Bamfield (B. C.) cable station and Puntland Island. No particulars are obtainable.

EX-SENATOR CLARK REACHES LONDON.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 7.—Former United States Senator W. A. Clark of Montana, with his two daughters, arrived here tonight from Paris. They were on the trip across the channel on the United States cruiser Tennessee.

HOW RESERVISTS WERE DETAINED.

PASSENGERS ON CHINA TEEL OF HONGKONG SEIZURE.

Forty Germans on American Steamer Manchuria Were Taken Off Within Treaty Limits of British Port, It Is Stated—Austrian Identifies Cruisers as English.

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Sept. 7.—Great Britain acted wholly within her rights, as defined by the State Department, when she detained forty German reservists, taken at Hongkong from the American steamship Manchuria of the Pacific Mail fleet.

This was made clear in the detailed report brought to shore by officers and passengers of the Pacific Mail liner China, which arrived here today from Hongkong, Yokohama and Honolulu. The Manchuria was boarded by the port authorities within the three-mile limit. Previous dispatches from Honolulu had not made clear whether she had been searched on the high seas or within the treaty limits of a British port.

The Manchuria arrived at Hongkong August 2, two days out from Manila, where the German reservists took passage for Germany via the Hongkong and Shanghai steamship line. The port officers lined up all the saloon passengers, picked out the Germans from the purser's roll and sent them to the detention station at Hongkong Island. No Austrian, as reported from Honolulu, were held. War between Great Britain and Austria had not then been declared.

Ludwig Reichert, an Austrian merchant in the Philippine Islands, who is also a private in the Austrian reserves, gave an unsupported identification today of the two battered and bloodstained cruisers, which have been variously reported as German and English warships.

Reichert said they were the British cruisers Lancashire and Hampshire, which had been in battle with the German cruiser Goeben and the Scharnhorst in the South China Sea. His information came from the Austrian Consul in Shanghai, he said.

Reichert said the latter was in the hands of the Chinese, and that the Chinese had been ordered to release the cruisers. He said the Chinese had been ordered to release the cruisers.

They reported the harbor heavily mined and the water dark. All business was suspended. No shipping was permitted to move after dark. All business was suspended. No shipping was permitted to move after dark.

Many of the same news conditions were reported from Japan. Food stores there already had advanced in price.

The China brought a cargo valued at \$2,500,000, including 6,000 sacks of refined sugar from Hongkong.

GERMANS CAPTURED.
(BY ATLANTIC CABLE AND A. P.)
BREIT (via Paris) Sept. 7.—Six hundred Germans have been captured on board the Dutch steamer Tambora. Among them are thirty-three officers.

The steamer was in the hands of the British. The steamer was in the hands of the British. The steamer was in the hands of the British.

MOINEUX INSANE.
New York Man, Acquitted of Murder, Formerly Committed as Violent Patient to Asylum.
(BY A. P. NIGHT WIRE)
BABYLON (N. Y.) Sept. 7.—Roland B. Moineux of New York, twice tried for the murder of Mrs. Katherine Moineux in 1898, and acquitted on the second trial, was adjudged insane today by two physicians sitting as a board in lunacy, and formally will be sent to the asylum at the King's Park asylum.

Moineux was arrested yesterday after he had been seen on the streets clad only in a bathrobe and trousers, and engaged in a series of running fights with pedestrians. For several days previously he had been a patient at a sanatorium, seeking recovery from a nervous breakdown, the result of overwork.

When guards unlocked Moineux's cell today he greeted them quietly and shook hands with them. A moment later he was being taken to a cell in the back. He was soon overpowered.

RUSHED TO THE FRONT.
Germany Sends Vast Body of Men Across the Rhine in Short Time According to Plans.
(BY ATLANTIC CABLE AND A. P.)
LONDON, Sept. 7.—A dispatch to the Evening Star from Rotterdam says that during the first nineteen days of the war more than 2400 trains bearing 2,000,000 troops for the western front have passed over the five bridges across the Rhine at Cologne. Notwithstanding this enormous army, reinforcements are still being hurried to the front, not only to take the place of the huge number killed and wounded, but also to replace the men of the front line who have been hurled back as possible fresh troops be hurled at men already in the line.

In addition to the tremendous siege guns of the Germans, ordinary field pieces have been hurled into the breach.

An American who has just arrived from Cologne, continues the Star's correspondent, states that he met a wounded German officer who told him that the success of the Germans was due entirely to the fact that the troops always had rest after an engagement. The army corps were being used in shifts to keep them fresh.

Costly.
BRITISH TRADE HARD HIT BY THE GENERAL WAR.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Sept. 7.—The effect of the war on British trade is seen in the Board of Trade returns for August. Imports compared with the corresponding month last year show a decrease of upwards of \$18,000,000, while exports have fallen off nearly \$100,000,000. The imports of sugar

have dropped more than 7,500,000 pounds, of which the loss of 4,000,000 falls on Germany alone. Manufactured articles show a decrease of \$42,500,000 in imports.

In exports, coal is down \$10,000,000 and manufactured articles \$75,000,000. Of the latter \$12,500,000 was lost on ships and war munitions and boats and some swimming. The chief engineer dived overboard and saved a woman and a child. One of the rescued women gave birth to a child a few minutes after being saved.

Arrested as a Spy.
(BY ATLANTIC CABLE AND A. P.)
PARIS, Sept. 7.—A German officer was arrested today near Corbelle, on the River Seine, sixteen miles south-southeast of Paris, wearing the uniform of the French military automobile corps.

Turk Charges Conspiracy

(Continued from First Page.)

By her under provocation compared with which the economic competition of the Japanese to the shipping of a Filipino or even the outrage of a negro are as nothing.

"Supporting for the sake of argument, we really could never happen, that the negroes were discovered to be engaged in a conspiracy with the Japanese to facilitate the invasion of the United States by the latter, how many of them would be left alive to tell the tale?"

"Great Britain and France have embarked upon a new campaign of provocation against Turkey, secretly hoping that as a result of it some thing untoward may happen in that country to confirm their sinister predictions, so that the United States will finally be prevailed upon to detach warships to the Levant and thus get mixed in the European fray on the allied side, but I believe the administration too sagacious to fall into such a vulgar trap."

"Besides, why should the United States not one of whose citizens has ever suffered in Turkey send warships in the waters of that country, with the result that it could only cause irritation against her and could under no circumstances act as a check? Bombard Smyrna. Reprisals are merely inhibited by Christians? What of that? And what more could she do? Nothing. But that would be enough to mean war."

The new British move against Turkey is clumsy. It will not cause the United States to modify its attitude. But it has called forth the following telegram from New York to the Turkish Embassy:

"If Turkey goes to war against England, the Hindus and Muslims in India and elsewhere will support her in every way. Thousands of volunteers ready."

[Signed.]
"BEHAYANKAR."
"East Twentieth Century." "WORLD FROM MORNINGSTAR."

Dispatches from Ambassador Morgenthau at Constantinople to the State Department show that communication with Turkey is impossible. The ambassador is unable to get any news from the Turkish government.

The extension of the forbidden zone in the Bosphorus was looked on here as another indication of the Porte's careful preparations for war. There is a belief in official circles, however, that while the military is taking every precaution, the diplomatic branch of the Ottoman empire is waiting for a more decisive turn in the conflict.

Ambassador Herrick's request for instructions as to what he might do to protect world-famous buildings and works of art in the event of a bombardment, was not acted on today. The ambassador intends to leave all American residences plainly marked with American flags and other insignia to insure their safety from attack. Detailed instructions regarding the evacuation of the city have been given by President Wilson and Secretary Bryan as to what he might properly do in his delicate position as a neutral diplomat.

SAVE NEARLY ALL RUNO'S PASSENGERS.

(BY ATLANTIC CABLE AND A. P.)
GRIMSBY (Eng.) Sept. 7.—Nearly 300 persons rescued from the liner Runo by trawlers when the steamship sank Saturday in the North Sea, after striking a mine.

The prompt work of four trawlers saved the lives of nearly all on board.

Wilson line officials say that all the crew and all but twenty-seven of the passengers are safe in this port. The Runo was bound from Hull on the long trip across the North Sea to Archangel and her passengers were mostly Russians from America who were returning to Russia with their women and children. The boat hit the mine in mid-afternoon Saturday during fine weather. The explosion was terrific and a large portion of the ship was scattered, while several passengers were injured and one was killed. The Runo, after striking the head somewhat remained in that position nearly two hours, her bulkheads holding her afloat. Her stern, however, suddenly gave way, elevating her stern high in the air for a moment, after which she slipped quietly into the depths.

TRAWLERS TO THE RESCUE.
Many of the survivors, injured by flying debris, were taken in ambulances on arrival here. It is believed that the Runo struck a mine.

The trawlers are declared by the Runo's crew to have been one of the finest episodes of the history of the war on the sea. The trawler Silonian was the first on the scene. The Runo's people were forward and the Silonian had difficulty in getting near on account of the peculiar upward tilt given the ship. As the passengers generally understood little English, the order to the trawler to get off more lifeboats. One of the stewardesses was rushed into the steerage after the explosion and saw that it was wrecked and splintered. He noticed that some of the passengers were badly wounded.

After the efforts to launch the Runo's lifeboats had failed, the crew of the Silonian threw out all their life lines, picking up women and children first as far as possible. The trawler Strethorn arrived immediately afterward and saved thirty-two persons clinging to wreckage in the sea. The mate of the Strethorn fastened a rope around his waist and was lowered alongside the ship to the water level, where he was able to pick up many of the injured.

When the Prince Victor came up her crew went overboard, some in boats and some swimming. The chief engineer dived overboard and saved a woman and a child. One of the rescued women gave birth to a child a few minutes after being saved.

URGES PEACE IN COLORADO

President Appeals to Men and to Employers.

Offers Tentative Basis for Adjustment of Strike.

Three-Year Truce Included Among the Conditions.

AT P. M. NEWS WIRE. WASHINGTON, Sept. 7.—President Wilson today by appeal to employers and employees to adopt "tentative basis for the adjustment of the strike" drawn up by the commission of conciliation appointed by Secretary Wilson of the labor department.

The appeal was sent to the president of the Colorado Fuel and Iron company, the chairman of the Iron and Steel industry, and to the officers of the United Mine Workers of America.

The appeal was sent to the president of the Colorado Fuel and Iron company, the chairman of the Iron and Steel industry, and to the officers of the United Mine Workers of America.

TRAVELING MEN FOR FREDERICKS

Organization of Their Club Is Now Completed.

Over a Thousand Enrolled to Start Campaign.

Believe Republicanism Will Aid Prosperity.

AT DIRECT WIRE—EXCLUSIVE DISPATCH. SAN FRANCISCO BUREAU OF THE TIMES, Sept. 7.—Arthur Glass, president of the John D. Fredericks Commercial Travelers' Club, today stated that organization had been completed and active preparations were now being made for a State-wide canvass of the voters, with rallies to be held at all the larger cities for the purpose of the furthering the candidacy of the Republican nominee.

The club now has a membership of more than 1000. All the large manufacturing, wholesale and jobbing houses with headquarters in California cities, are represented in the membership of this club.

The officers of the organization are as follows: Arthur Glass, president; William A. Barrett, first vice-president; Samuel T. Breyer, second vice-president; William A. Nolan, fourth vice-president; Louis E. Peia, secretary and treasurer; Thomas A. Keogh, counselor.

This organization was formed because the members believe that under Capt. Fredericks the business of the State will improve, prosperity will be more generally distributed, and the annual profits of the commercial houses which they represent will be increased.

Under the Johnson administration during the last four years, commercial travel state, business in several lines has decreased 50 per cent.

COLORADO POLITICS. Labor Issues and Prohibition Are Prominent Among the Issues in the State-Wide Primary of Today.

AT P. M. NEWS WIRE. DENVER, Sept. 7.—Labor issues and prohibition are prominent among the factors entering into the State-wide primaries of the Democratic, Republican and Progressive parties of Colorado tomorrow.

Campaigns of various candidates have been waged publicly along lines growing out of the unsettled strike of the United Mine Workers of America. In addition, the supposed desire for a better government has been a factor in the campaign.

It is said today the Indians threaten to go on the warpath unless the lands they held before the Spanish invasion be immediately returned to them.

WHAT EVERY EDITOR KNOWS. But "Soph" Daniels, Being a Democrat, Imagines He Is the First to Discover a Work Day Adam.

AT P. M. NEWS WIRE. VERGENSES (Vt.), Sept. 7.—A subordinate of the printing of news to the service of the country, especially when international issues are involved and the times are fraught with peril, was the counsel of Joseph Daniels, Secretary of the Navy, to American editors and publicists, as expressed here tonight before the Vermont Press Association.

Mr. Daniels declared his agreement with Thomas Jefferson, that if given to choose only one, a free government or a free press, he would choose the latter.

Not Utopian. RENTS ARE NIL IN THIS PLACE.

TOWN IN PRUSSIA IS ALSO TOWN WITHOUT A MAN.

Opened Censored Letter Received Here Tells of Suffering and Privations Endured by Rich and Poor Alike Since the War Started.

Business at Standstill. Landlords in Lieke, on the Weser of Prussia, Germany, have been unable to collect any rents since the war started, according to a letter received yesterday by Mrs. Muhlenfeld, wife of Prof. Karl A. Muhlenfeld, a local teacher of languages. The opened letter with its contents censored by the German military authorities, came from Mrs. Muhlenfeld's mother.

It reports conditions of extreme distress existing in the war-ridden life of the Germans. "Every able-bodied boy over 16 years old," the letter relates, "and every man under 45 years has been ordered into the army, and they have all gone. In the streets you will not see a man for hours."

"All the work in the fields is being done by women and girls, and business is at a total standstill. The little merchants cannot get any supplies and have closed their shops. All prices are terribly advanced."

"It is as much as a foreigner's life is worth to be found here, for they are all suspected of being spies. Particularly do the people despise the English and the Japanese, and very often we hear of the Union Jack being trampled in the mud by the women."

"It is almost impossible to get hold of any money. The landlords have given up all effort to collect their rents. Nobody has anything with which to pay them. The terror of the poor women who have sent their men to the war is terrible."

The letter was posted August 7 and did not arrive until one month later.

TWO EARTHQUAKES SHOWN ON RECORD.

REMARKABLY DISTINCT SHOCK IS FELT BY SEISMOGRAPH AT SAN JOSE.

AT P. M. NEWS WIRE. SAN JOSE (Cal.), Sept. 7.—Prof. Albert J. Newlin, of the observatory staff of the University of Santa Clara, reports that a remarkably distinct earth shock was produced on both the double horizontal and the vertical seismographs this morning, lasting five seconds.

The first movement began at 10:05:38 o'clock and was perceptible for a second or so, and then gradually subsided to the end of 10:11:16.

The double amplitude was twenty-five millimeters and the period eight-tenths of a second. Prof. Newlin calculated the epicenter local, as evidenced by the absence of preliminary and the movement from southeast to northwest.

TWO WAYS OPEN FOR CARRANZA

Wilson Proposes Plans to Obtain Recognition.

Willing to Withdraw Fleet if First Chief Resigns.

Alternative Offered Allows Power Without Title.

WASHINGTON BUREAU OF THE TIMES, Sept. 7.—Information comes from a reliable source that President Wilson has offered to withdraw the American troops and marines from Vera Cruz to Carranza, first chief of the Constitutional movement and the present executive head of the government at Mexico, will resign from his position in favor of some other prominent Mexican. President Wilson, according to information from the above source, will grant immediate recognition to Carranza if he assumes the office of provisional President, but on condition that he will not be a candidate for constitutional President in the regular elections which Constitutionalists are pledged to hold at an early date. Withdrawal of the American armed forces from Vera Cruz will come immediately after recognition has been given by this government.

ALTERNATIVE. There is another alternative proposed by President Wilson, but continues to exercise the executive power as first chief of the Constitutionalists, the United States government will immediately give him recognition and will agree that Carranza shall be a candidate at the general election and furthermore will recognize the person selected at the polls. Pending this election, however, the United States will retain its forces at Vera Cruz.

These proposals, it is asserted, have been placed before Gen. Carranza by Paul Fuller, a New York attorney and friend of President Wilson, who is now in Mexico as an unofficial emissary of the President.

GEN. DOMINGUEZ RESIGNS POSITION.

GOVERNOR OF FEDERAL DISTRICT DISPLEASED BY AN APPOINTMENT.

BY GEORGE ADDISON HUGHES. AT DIRECT WIRE—EXCLUSIVE DISPATCH. MEXICO CITY, Sept. 7.—Gov. Robles Dominguez has presented to Carranza his resignation as chief executive of the Federal District. The resignation follows a demand by Dominguez that the Minister of Gobernacion recall an appointment he made of a man Dominguez does not believe is the proper person for the office of chief of Mexico City.

Gen. Cabral, military commander of the Federal District, also resigned in favor of Gen. Obregon, who held a long conference today with Carranza. Cabral resumes command of his brigade in the northwest.

Carranza has issued a decree revoking the joint order by Dominguez and Cabral that prevents confiscations or arrests without signed authority from the military commander or Governor.

Elizabeth Woods, the American girl fiancée of Gen. Jimenez Castro, arrived here today and began her attempt to save her Mexican sweetheart's life. She has procured from Sullivan a letter of introduction to Gen. Eduardo Hay, who will be asked to present her to Carranza.

Carranza tomorrow will preside at Chapultepec over the ceremonies in honor of the cadets who, in '47, lost their lives there in battle with Americans.

SEVEN BURNED IN BARN. Railway Construction Employees Meet Death in Wisconsin When They Find Place to Sleep.

AT P. M. NEWS WIRE. LA CROSSE (Wis.), Sept. 7.—Seven men, railway construction employees, were burned to death in a fire in a hay barn just outside this city today. The men were on their way back to their camp from the city and are supposed to have stopped in the barn to sleep, with the result that the building was set on fire by their matches.

IF YOUR mind troubles you, you can now find it by getting your glass at the Chicago Medical Company, 515 South Broadway, North Room. (This box for sale.)

Avoid Danger of Blood Infection

Get Your Blood Strong to Resist Daily Perils

A host of people have thanked their lucky star to have used S. S. S. for the blood instead of those dangerous drugs such as mercury, calomel, arsenic, etc. It is an easy matter to get the blood poisoned from contact with disinfectants. They live in almost everything we touch or handle and a slight scratch or skin abrasion is often the gateway for a vast army of germs. If the blood is impure, if pimples, boils, sores or other eruptive conditions make the skin a danger spot, use S. S. S. at once and fortify the system. Get your blood strong and full of red corpuscles to renew tissue health. Let S. S. S. keep down the tendency of all germs to multiply and your skin will soon renew itself. These facts are explained in a beautiful booklet just issued and will be mailed, free, by The Swift Specific Co., 119 Swift Bldg., Atlanta, Ga.

Get a bottle of S. S. S. today of any druggist but insist that you will have nothing else.

For more detailed directions write the Medical Dept., as suggested in circular around the bottle.

THE CITY AND ENVIRONS. EVENTS BRIEFLY TOLD.

To Address City Club.

Chairman Frank P. Walsh and Prof. John R. Commons of the United States Commission on Industrial Relations, will address the members of the City Club at their luncheon at the Union League Club next Saturday noon.

New School for Girls.

The Olivet School for Girls, a private institution located on the spacious grounds of the old Hopper residence at No. 141 West Thirty-third street, will open on the 17th inst. with accommodations for about fifty resident pupils and many more day students. There are five teachers under the general direction of Mrs. Francis A. Mills, president, and primary, grammar and high school subjects will be taught, together with athletics and music.

Suicide Follows Escape.

William E. Birmingham, 34, formerly a mail carrier, ended his life by shooting himself through the heart at No. 157 West Sixteenth street yesterday. He escaped from Patton asylum ten days ago, according to the police. At the place of his death he was known as John Francis, having registered under that name several days ago. Two brothers and an uncle live in the city. The body was taken to the Breese parlors.

Crushed by Vehicles.

Andrew E. Lynch, 49 years old, door-keeper at the Los Angeles Trust and Savings Bank, was caught between a street car and a heavy wagon at Fifth and Spring streets yesterday morning and seriously injured. He was attempting to board a car when a wagon backed down a board incline and struck him against the side of the car. Mr. Lynch was taken to the Receiving Hospital. He received lacerations of the body and a possible fracture of the thigh.

OFFICER'S WIDOW CONFESSES THEFT.

PLUNGED INTO POVERTY AFTER LIVING IN AFFLUENCE HER EXCUSE.

Plunged from a life of affluence into direst poverty, through the death of her husband, Mrs. Matilde Ramirez, widow of Tomas Ramirez, former paymaster-general of the Madero army in Mexico, was arrested last night on a charge of stealing seventy-five valuable suits from a tailoring shop at No. 111 East Seventh street.

For several days Detectives Browning and Howe have been working on the case, and became convinced that Mrs. Ramirez, a seamstress in the establishment, was responsible for the disappearance of large quantities of clothing.

When taken to the Central Police Station she said that her husband had been killed at Nuevo Laredo, Mex. and since that time she had been in straitened circumstances. The temptation to steal became overpowering, she said, when she found her slender earnings were insufficient to procure the sheer necessities of life.

Most of the stolen clothing was sold to second-hand dealers on East Fifth street, and the officers are investigating to ascertain if the persons who bought the property were aware that it was stolen.

SKULL FRACTURED.

School Boy Falls in Boarding Morning Car and Injuries Are Pronounced Serious.

While attempting to board a morning car at Pritchard and Mission road last night, Henry Johnson, a schoolboy, living with his parents at No. 2114 Manitou road, was thrown to the pavement and sustained a fracture of the skull.

He was taken to the Receiving Hospital, where Dr. Roome pronounced his condition serious. According to the testimony of eyewitnesses, the lad, with several others, was playing in the street and it is supposed that the boy tried to steal a short ride.

CAUGHT RIFLING TILL.

Caught rifling a till in a cigar store at No. 906 San Pedro street, Edward Hart and Henry Hale were overpowered by C. B. Coulter, the proprietor, last night, and were turned over to Motorcycle Officer Huston. Mr. Coulter was in the rear of the store when Hart is alleged to have opened the cash register and removed \$12.50 in 25-cent pieces. In the fight that followed, both men were badly mugged up by the irate cigar man. They were held on a charge of suspicion, as both are said to have police records which will be investigated by Detectives Cowan and Ingram.

—and the Worst Is Yet to Come

REPORT ON INVESTIGATION.

What Councilmen Will Have to Say on Mohler Matter Is Question of Conjecture at City Hall.

It is probable that during the present week the report of the special committee appointed by the City Council to investigate the work of Charles K. Mohler as railroad engineer for the Board of Public Utilities, will be presented to the City Council.

There is considerable speculation at the City Hall as to just what grounds will be covered in the report, and also as to whether a minority report will be submitted. The impression is current that those who have been supporting Mr. Mohler in his attitude of refusing to resign after having been advised so to do by President Wright, will not let the incident drop but will make an appeal before the Council. Just what they could accomplish there is very vague, as the city charter clearly gives the Board of Public Utilities the right to employ and discharge employees—and it has elected to declare abolished the office that was held by Mr. Mohler.

The special Council committee is composed of Councilmen Betkouski, Snowden and Wheeler. Betkouski and Snowden are inclined to take the railroad department of that commission, but that as both President Wright and Commissioner Lane are practical engineers, they will direct its work and that it is not necessary to retain Mr. Mohler as "chief railroad engineer."

DESPERATELY WOUNDED.

Pistol Ball Pierces Window and Strikes Real Estate Man in the Abdomen.
(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)
SANTA BARBARA, Sept. 7.—George Doane, grain buyer, to startle some friends on the sidewalk, discharged his revolver toward the pavement at Santa Maria, and the bullet, glancing, pierced a window and desperately wounded Drover Rice, real estate broker, as he sat reading a letter.

This is the version of the shooting received today by Sheriff Nat Stewart. The bullet struck Rice in the abdomen. His condition is precarious. Doane claims that he did not fire the revolver, but that it was discharged on striking the sidewalk after having dropped from his pocket. Both men are friends and prominent at Santa Maria.

IMPERIAL COUNTY FAIR.

(LOCAL CORRESPONDENCE.)
EL CENTRO, Sept. 7.—The date for the Imperial county fair has been set for November 18 to 21. Those who have charge of it are undertaking to have a larger and more representative exhibit at this fair than has been undertaken at heretofore, by the Fair Committee. Automobile and horse-racing have been prominent during the fair of former years, thus making them largely institutions of amusement. This year, however, these pastimes will have to give first place to the products of the valley.

PERSONALS.

Mrs. C. F. Guthridge and son, Russell, will arrive home tomorrow afternoon from the war zone in Europe. They are expected on the 2:30 p.m. Santa Fe train.

BUSINESS BRIEVITIES.

The Times

TUESDAY, SEPTEMBER 8, 1914.—EDITORIAL SECTION.

POPULATION By the Federal Census (1910)—215,100 By the City Directory (1914)—215,100

XXXIIIrd YEAR

SWINGS AX OVER SALVATION ARMY

Charities Commission Says Must Obey or Quit.

Final Hearing Today; Last Chance to Conform.

Still Rushes from Chicago to Save Institutions.

Having failed, after a year of opportunity, to conform to the requirements of the Municipal Charities Commission, the Salvation Army will today make its final appeal to the city fathers to take advantage of this, its last chance to conform.

This drastic action will mean actual destruction for the local army, which has a number of stores, rooming houses, and hotels, several halls and institutions, in Los Angeles, partially all operated as charities.

The negotiations of a year in which officers of the army have been appealed to by the commission to conform to its requirements, and in which the army has refused to do so, it is charged that the Salvation Army officials have been making a large percentage of the funds collected to their work in New York, London and numerous other cities, and have not been notifying the city of this condition of affairs when making contributions.

National Commissioner Estlin of Chicago, with other officials of the army, will appear at the commission headquarters, No. 1914 Marsh-Streong, today, to make a final effort to save the army's temporary permits from being granted from month to month, awaiting a settlement, but the officials have failed to make an effort to conform.

CONDEMNED ARMY. The commission has drawn up a resolution to be presented to the city council which recites that: "The Municipal Charities Commission is of the opinion that the Salvation Army does not meet actual needs of the community."

Evolution. STRANGE CAREER REACHES ALTAR.

YEGGMAN, THEN EVANGELIST, NOW A BRIDEGROOM.

Scion of Fine English Family and Oxford Graduate Who Sank from Adventure to Convict, Then Rose to Ministry and Philanthropy, Weds Los Angeles Woman.

Twenty years after the death of his first love, years filled with adventure, crime, repentance and philanthropy, Rev. Leonard Mordaunt has found a second. News of his wedding a few days ago was made public yesterday in formal announcements. The ceremony took place in Ventura, which made Miss Genevieve Thomas of this city the prison worker's bride.

A graduate of Oxford, younger son of a noble English family, an attorney and member of the most exclusive social clubs of England and the continent, Mr. Mordaunt lost heart in the future when his fiancée of long ago died on the day set for the wedding.

He sought forgetfulness in adventure. He explored the deserts of Central Australia in his search for excitement. He joined in a dash for the Antarctic Pole; sailed on a slaver through the little known islands of Oceania and the Eastern Archipelago; was captured as a blackbird in the South Seas and imprisoned in Honolulu, whence he escaped by swimming out to a passing vessel; was imprisoned in America as a yeggmán and while in a penitentiary, made up his mind to devote his life to the salvation of other fallen men.

His efforts have in a few years secured the paroling of 151 prisoners from San Quentin and Folsom and the complete reformation of the majority of them. His knowledge of law has helped to untangle a number of serious miscarriages of justice and save the sufferers from felon's graves.

While carrying on his work, Mr. Mordaunt studied for the ministry and was ordained. He became a State evangelist for the Free Methodist Church. Ardent workers for the same ends, Miss Thomas and Mr. Mordaunt had many sympathies, with the result that they were drawn closely together and the romance blossomed.

Miss Thomas came here with her parents from Iowa. Her grandfather was in the Civil War and still more remote ancestors in the Revolutionary army. Rev. and Mrs. Mordaunt are now at home at No. 3914 Homer street. They will continue their religious work. Mrs. Mordaunt assisting in the labors of her husband.

IN AID OF WOUNDED. French Auxiliary Red Cross Society Will Give Garden Fete Soon to Raise Funds.

An elaborate garden fete will be given Saturday afternoon, the 26th inst., from 3 to 6 o'clock at the home of L. N. Brunswig, No. 3528 West Adams street, by the French Auxiliary Red Cross Society to raise funds for the aid of the French and Belgian soldiers who are wounded in the present European war.

All funds collected will be cabled direct to the French Red Cross officials. Remittances in any amount to the cause may be sent to Jules Viole, the treasurer, No. 242 North Main street.

Crown of Romantic and Adventurous Life.

Mrs. Leonard Mordaunt, Formerly Miss Genevieve Thomas, of a family of distinguished ancestry, residing in this city. She and the prison worker were married in Ventura.

SEEK ANCHORS FOR "FLOATER."

Industrial Commission Finds Him Grave Problem.

Unrest More or Less General, Says Chairman Walsh.

"Open Shop" Hearings Begin Here This Morning.

Seeking a remedy, or at least a palliative, for what it terms a more or less general industrial unrest due in some measure to the migratory character of labor, the United States Commission on Industrial Relations will begin a series of hearings today in the admitted stronghold of the "open shop." The evidence adduced will, significantly, complement that gleaned last week in San Francisco, whose domination by the labor unions is a matter of familiar history.

"A forward step in the annals of economics we hope," said Frank P. Walsh, chairman of the commission, in commenting yesterday on the work undertaken. "If we achieve nothing else, we will at least supply a mass of data susceptible of use, we believe, in solving some of the problems presented—illogically, it would seem—by a democracy of great material resources which is confronted today by food, fuel and unemployment problems, as well as the slow disintegration of its industrial system."

"Officially," he continued, "this commission is acting as an advisory body to Congress in the framing of laws which have to do with the relations between employers and employees, collective bargaining, the effect of industrial conditions on public welfare, the rights and powers of communities in the industrial problems, and a host of other things including sanitation, safety-appliance acts, and the illegal entry of Asiatics into the United States or its insular possessions."

Speaking of the seven-day hearings here, Mr. Walsh said: "This city is typical of municipalities in which the open-shop policy has been consistently carried out. It is the reverse of the shield to San Francisco; the other side of the subject, in other words. The evidence adduced here will be of the highest importance, as it will deal primarily with the open shop as a reality."

THE COMMISSION. Mr. Walsh, who came into national notice in 1912 as chairman of the Social Service Commission of the Democratic campaign and whose work as attorney for the Kansas City Board of Public Welfare and as an arbitrator of labor disputes is a part of Missouri's industrial history, arrived here yesterday from San Francisco, accompanied by his fellow commissioners, James O'Connell. Two other members of the commission, Prof. John R. Commons and Harry Winston, were already here, while Austin B. Garrettson will arrive this morning after having delivered the Labor Day address yesterday at the University of California.

All hearings, beginning at 10 o'clock today, will be held in Board Hall, No. 233 South Broadway. The daily sessions will continue from 10 o'clock a.m. to 4:30 p.m., with an interval from 12:30 to 2 o'clock. All hearings are free of charge.

Chairman Walsh and Prof. Commons will deliver addresses today at the weekly luncheon of the California Home Rule in Taxation League at the Hotel Alexander. The commission has its headquarters in room No. 351, Hotel Alexander.

The genesis of the "open-shop" system in Los Angeles and the industrial history in detail of this city, will be the subject of the survey today, with Gen. Harrison Gray Otis as the first witness, followed by Secretary Zeehandelaar of the Merchants' and Manufacturers' Association; Charles Scott, organizer of the International Typographical Union; C. F. Crow, walking delegate of the International Association of Machinists; Fred L. Baker, president and manager of the Baker Iron Works; and J. W. Bussell, walking delegate of the Metal Trades Council, in the order named.

With the report of the commission awaiting transmittal to the President, Chairman Walsh sat in his room in the Hotel Alexander, twice a week, for a powerful-built man of incisive speech, and kindly blue eyes, and told something of the work.

"We have found it all over the country; more pronounced in one place than in another, as a matter of course. But the problem that we have found everywhere is that presented by the occasional or casual or migratory laborer."

THE "FLOATER." "Here on the Pacific Coast there is an especially large body of floating labor, and the industrial situation here presents more adequate rotation of crops, thus bridging over the now long periods of time in which there is little or no demand for the laborer who migrates from place to place in pursuit of a day's work. Incidentally, crop rotation will work another benefit. It will more adequately use the soil, thus producing wealth in increasing quantities."

"It is scarcely needful for me to say that a man whose mind is occupied with labor is apt to be somewhat discontented than the man with nothing to do. For instance, we find discontent and lawlessness rampant wherever large bodies of men are out of work for one cause or another. Of the larger work of the commission, Mr. Walsh said: "It is too much to ask any body of men to devise ways and means of doing away with all the friction engendered by the fact that some men have to work for others. To do so would be to make a mockery of the law."

"To be precise, there has never been an adequate industrial survey of this country, nor any attempt, based on sure knowledge, to eradicate the disease with which our industrial system is prone to be afflicted. We have studied the boll weevil, for instance, but industrial diseases have only been

"A Forward Step in Economic History."

Frank P. Walsh, Of Kansas City, chairman of the United States Commission on Industrial Relations, which opens a week's session in this city today.

SEEK TO FORCE UNION SCALE.

LABORITE DELEGATES RESORT TO INITIATIVE.

Pasadena Follows Example of Los Angeles in Refusing Dictation as to Wage to Be Paid Municipal Employees—Compensation Equals or Beters the "Regulation."

Pasadena follows the example of Los Angeles in refusing dictation as to wage to be paid municipal employees. The city council has adopted a resolution that the city shall receive a fair and proper wage, and that this shall be uniform.

That the ambition of the walking delegates to force the city to adopt a scale of wages formulated by the unions have been a complete failure, but the rumor is now current that through an initiative petition the unionites propose to bring the subject before the people.

"Curly" Grow and his associates made strenuous efforts before the City Council and the Finance Committee to compel this adoption of rates. That the Council should adopt the union scale when it has employed at large expense a municipal efficiency expert and has assistants to work out a standardization of all salaries of municipal employees, has been considered absurd by the Council. The Municipal Efficiency Commission is working out its schedules and proposes to see that the same efficiency expert in all departments of the city shall receive a fair and proper wage, and that this shall be uniform.

That the ambition of the walking delegates to force an acknowledgment of the union scale is a fixed programme is evidenced at Pasadena. There representatives of the Building Trades Council have appeared before the City Commissioners within the past few days and demanded that an ordinance be adopted whereby Pasadena shall pay union wages to every man in its employ. The unskilled laborer would receive \$3 per day, no less, if the Pasadena laborites could conform to their demands. They also demand that no man shall be employed by the city until he has been a resident of the place for at least one year and shall also be a voter.

At the present time Pasadena is paying its unskilled laborers a wage of \$2.40 per day, while most of the skilled labor employed by the Crown City officials is paid wages fully equal to the union scale.

When the union labor representatives appeared before the commission to urge its demands, Commissioner Loughey stated that if Pasadena raised the wage scale it would necessitate throwing out of employment a large number of the city's employees, who are physically incapable of performing labor worth to the city \$3 per day.

A. B. Myers, representing the labor council, urged that the Commissioners insist that street contractors, before they are awarded contracts, be made to agree to pay the union scale for labor. To this, objection was raised by Chairman Metcalf, who declared that he does not believe the commission has the power to designate the wages any employee of a private contractor may receive. He also objected to the demand that a man must be a resident of Pasadena a year before he could hope to receive work from that city. The Commission decided to take no action.

DEATH PASSES OVER. Felled by the fender of an auto truck, Grace Vigles, 7 years old, living at No. 337 West Fifty-fifth street, over her life to the fact that she passed under the machine, clear of the heavy wheels. She slipped from a street car at Sixteenth and Wright streets yesterday, passed around it and into the path of the truck, which was driven by W. D. Bradford, No. 409 Crocker street. Only a slight cut was inflicted.

LAY PLATFORMS; NAME OFFICERS.

Courthouse to Be Whirligig of Politics Today.

Five Parties to Hold Their Conventions There.

Southern Republican Caucus Here Tomorrow.

The five political parties will hold county conventions beginning at 10 o'clock this morning at the Courthouse. Interest centers in the Republican convention by reason of its size and the contests that are on for various honors.

Last night it was said that Fred J. Springs, heretofore a candidate for Republican county chairman, would propose the name of William M. Bowen. Mr. Bowen will doubtless be elected chairman without opposition if this action is taken by Mr. Springs, as there are no other candidates.

For the secretaryship, the committee of ninety-six members is divided. George C. Boswell is an avowed candidate for election to that office, but many committeemen have expressed a desire to leave the office to the chairman for appointment.

While the Republican convention is in session the "Progressive," Democratic and Socialist conventions will be held on the same floor. On the floor above the Prohibitionists will hold their convention.

The conventions will adopt platforms and select officers and name executive committees. "HONOR" FOR MR. FLINT. When the Republican convention assembles Monday H. Flint, one of the delegates, will be presented with two certificates. One shows he was elected at the primary as a Republican county committeeman. The other certifies that he is a member of the "Progressive" County Committee.

He was elected upon both committees from the Sixty-third Assembly District, where he lives. He ran as a straight Republican and received the high vote on that party's ticket. He is so well known in the district, and so well known generally that his name was written in often enough by "Progressives" on their primary ballot to elect him.

Mr. Flint, former postmaster, now a banker and politician, did not seek the double honor. Although he is a regularly accredited member of the "Progressive" County Committee, he

N. B. Blackstone Co.

Children's School Wear

The little folk from 2 to 14 years will be delighted with the new Autumn styles—with the cuts, the colors and materials. And those who provide the wherewithal will be equally well pleased with the prices.

Coat Styles—\$3.75 to \$7.50

Smart looking, well made garments of shepherd checks, corduroy, Scotch tweed, basket weaves, diagonals and chevrons. \$3.75 to \$7.50 each. 2 to 6 years.

Coats \$7.50 to \$21.00

Diagonals, diagonals and homespuns in many new loom effects. Browns, greens and army blues, plaids and novelty mixtures, some with cape effects, and the new military collars. \$7.50 to \$21. 6 to 14-year sizes.

Pretty School Frocks

\$6.50 to \$16.50

They came Saturday, these pretty little dresses. While they are practical, they lack nothing in newness and style. There are Russian styles and tunic effects, Oliver Twists and Peter Pan collars; some show the new plaited skirt. Materials are novel challoes, poplins, shepherd checks, plain serge or serge combined with large Scotch plaids. They are particularly pretty for school wear and good enough for more dressy occasions. \$6.50 to \$16.50.

New Middies for School

The ever popular Middy and Middy Skirt is here in every new and wanted style.

MIDDY BLOUSES of blue flannel in sizes 12 to 20 years \$3.25.

MIDDY SKIRTS of blue wool serge, full plaited, sizes 8 to 14 years, \$3.75.

MIDDIES of white galatea with blue trimmings, co-ed or regulation style, 12 to 20-year sizes, \$1.25 and \$1.50.

318-320-322 South Broadway

"SINCE 1880 THE HOME OF MUSICAL QUALITY"

CITY'S SCHOOL YEAR OPENED.

Fifty Teachers Missing as Enrollment Begins.

Substitutes Asked to Report This Morning.

One Session Plan Must Again Be Adopted.

With fifty teachers missing from the allotted 2500 the Los Angeles schools will open today with a big enrollment. School officials were unable yesterday to make any estimate of early registration, but they believe it will exceed that of any previous year. Superintendent Francis says that the total enrollment before the end of the school year may pass the 100,000 mark.

Of the absentees many are accounted for by difficult traveling conditions consequent upon the war. Only a few are believed to be marooned in Europe, but others have been delayed and will be unable to report today. The superintendent has requested all substitute teachers to report this morning and it is probable that most of them will be assigned to at least temporary positions. Los Angeles and its army of pupils are growing faster than the Board of Education can take care of them. School enrollment in this city is said to be greater than that of any other city of the same size in the country. The chief difficulty facing the board and other school officials is lack of buildings.

Many alterations and improvements have been made throughout the city and conditions have been improved in important ways. But the real need of additional school buildings has not been met. The \$4,600,000 bonds already issued would provide, if sold, money enough to supply all the present necessities, but until the cash is available the board is unable to order construction of any of them.

Insignificant room will again make it necessary to put in force the one session rule at many schools. How many schools will be affected and to what extent cannot be determined until this week's registration figures are reviewed. It was stated yesterday, however, that many classes can have only one session for a time and that in some of the schools the registration hours may have to be slightly curtailed. For the first two weeks of school the Polytechnic High School will shorten its periods from forty-five minutes to thirty-five minutes to complete the day session at 12:30 o'clock. The Santos intermediate school will occupy part of the building until the alterations on its own building have been completed.

High school accommodations continue to be inadequate, but the number of high schools will soon be increased from eight to nine. The Board of Education at its meeting last night may reach a decision concerning the location of the proposed high school for the Highland Park-Garvan district. The proposition to purchase the old Occidental College buildings for the purpose has been vigorously opposed by a large number of Garvan people and counter propositions were made at last week's meeting of the board. The matter was then allowed to go over with the understanding that all proposals should be in definite form by tonight.

An important innovation this year will be commercial courses at the evening school to be conducted at the Los Angeles High School, with Mr. Sikes as instructor. Mr. Sikes expects a greater enrollment than last year.

The course includes preparation for national civil service appointments and prepares students to pass examinations for postal clerks, mail carriers, United States railway mail clerks and for departmental service in Washington. Pupils will also be prepared for municipal positions under civil service requirements.

There is room for 120 national civil service appointments here, and only thirty can be accommodated in the class. Mr. Sikes says that all who pass the examinations are reasonably certain of appointment. The allotment is usually made by States in accordance with population. Heretofore California has won because of lack of candidates. Mr. Sikes took the United States general examination for Philippine service in 1914 and received the highest mark of any of the candidates in the country.

A course in home nursing has been added to the curriculum of the evening Polytechnic High School. The class is open to persons of all ages and is expected to appeal especially to young mothers. The course, which is under the direction of a registered nurse, will include instructions in how to feed infants and children and in emergency and first aid treatments. Pupils will be enrolled this evening. The class will meet five evenings a week.

TELLS SAME OLD STORY.

Mexican Alleged to Have Tried to Kill His Wife and Then Wounded Himself—Blames Others.

P. Enrico, a Mexican, living at what is known as the Seneca neighborhood near Nigger Slough, is in the County Jail "on suspicion." It is claimed that Sunday night Enrico tried to kill his wife as the result of a quarrel. Later he got into a fight, he asserts, with another Mexican and Chinaman. Enrico exhibits a number of cuts that he says he received in the encounter. The officers have some doubts as to his story.

About a month ago Enrico pretended to have had trouble with his wife, that was followed by a fight with two men, just as in the latest instance, and at that time he exhibited a number of fresh cuts alleged to have been received in the fracas. Without any investigation other than Enrico's word, arrests were made at that time, and two men named Genes and Fernandez were given jail sentences.

The repetition of the same story so soon has made the officers a bit suspicious, and an effort will be made today to hold a lunacy inquest on Enrico. Physicians who examine the man do not hesitate to say that the wounds are self-inflicted.

THIEVES BEAT VICTIM. Finding that their victim, Droque Madrano, had no money, two highwaymen brutally beat him in Alameda street, near Sanchez, early yesterday morning.

WHITE SOCKS FOR ALL.

Scarcity of Dyes Threatened by War—Present Stock of Ribbons Will Be Shown at Fashion Show. Members of the local Retail Dry Goods Merchants' Association are awaiting with interest the development of the situation regarding dyes and chemical lines. The eastern merchants through the State Department, have cabled Ambassador Gerard, in Germany, regarding the advisability of sending a special envoy to Germany to secure large amounts of such materials which it is believed are all ready for shipment, but lack only vessels for proper transportation.

As a large amount of the business for next year must depend upon the immediate receipt of some dyes, manufacturers and merchants the country over are much disturbed at the condition which is threatened. One definite result of the dearth of dye stuffs will probably be the general wearing of white and unbleached stockings by both men and women next year. Already the supply of fancy colored hose for children is exhausted, and merchants are unable to secure further supplies this season, beyond those now in stock. The supply of fancy ribbons, too, is threatened, and those of the local merchants who were fortunate enough to secure these stocks of these decorative fabrics early are planning upon making a big display at the coming Fashion Show, which is to open September 24.

YELLOW PERIL LOOMS AGAIN.

UPRISINGS AGAINST WHITES IN CHINA THREATENED.

Deter Received from Angelenos in Shanghai Tells of Terrible Danger that Foreigners Face Since European War Has Called Away Battleships of Power.

Grave danger from uprisings against all of the white people in China is feared. Hundreds of thousands of Chinese have been thrown out of work through the closing of many factories and stores operated by European concerns and are starving.

All of these things and more of interest are told in a letter of G. A. F. Bidwell, special representative of the United States Rubber Company, to William H. Reid, manager of the Photoplay Club of this city. Mr. Bidwell, accompanied by his wife, travels through China and particularly Manchuria, his principal office being in Shanghai. His situation is explained in one brief sentence: "I have arranged all of my affairs systematically so that we can make a quick getaway in case of emergency."

Manager Reid is conversant with Chinese affairs, having for years been an official of one of the oriental steamship companies and lived for some time in China. "There is no doubt in my mind that conditions are serious and even dangerous from within," Mr. Bidwell has to say, he declared. The letter says that Shanghai is closed to the world. "Nearly every foreigner has been ordered to leave the city," he writes. "Business men stand around like a lot of children staring at each other, talking over the situation in sort of a dazed way and wondering what is going to happen next. Prices have jumped high on all footstuffs and banks are refusing to pay out any money. Thousands of Chinese have been thrown out of employment and already there are incipient riots."

"The Chinese blame all their troubles on the white man and there are almost countless rumors afloat of planned uprisings for the purpose of killing off all foreigners, including all the Japanese, while the opportunity is so excellent. They point to the fact that all battleships have been practically withdrawn to their own territories and that there would be no chance for concerted action on the part of foreign nations. How long it will take to fan these sentiments into an actual blaze is hard to say and nothing may ever come of it, but on the other hand, with the very uncertain characteristics of the oriental to deal with, an uprising may be started and well on its way before this letter reaches you."

Mr. Bidwell also states that weather conditions have been bad in China. The heat has been greater than at any time in forty-one years and has caused the destruction of crops. All food supplies are coming from the United States since the beginning of the war, nothing else being allowed entrance save as contraband.

CONTRACTOR DROWNS.

Seized by Cramps While Swimming at Newport Beach, Succumbs Before Help Can Reach Him.

While bathing at Newport Beach Sunday afternoon, C. R. Clemence, a contractor of this city, who has been associated for some time past with the Harry H. Culver Company as manager of the Culver Construction Company, was taken with severe cramps and drowned before assistance could reach him. Mr. Clemence leaves a wife and four children.

Before becoming a resident of Los Angeles, Mr. Clemence was a prominent building contractor in Birmingham, Ala. He was a man highly respected and admired, and who had made many warm friends to whom his sudden death is a deep sorrow.

Mrs. Clemence will leave tomorrow evening to return with the body to Birmingham, where the funeral services will be held.

SEE OVERNIGHT HOW READILY POSLAM HEALS
Often when Poslam is applied to an eruptive spot that is the last you will see of the disorder, and the skin is clear next morning.
Poslam is efficient itself in the treatment of any skin trouble. Its merits are easily demonstrated by trial overnight. Complexions are beautifully cleared; blackheads and acneous pimples removed. Nothing equals Poslam for Blemishes. Itching spots are controlled and driven away.
Your druggist sells Poslam. For free sample write to Emergency Laboratories, 23 West 34th St., New York.
Poslam Soap, medicated with Poslam, beautifies complexion, prevents roughness. 25 cents and 15 cents.

SCIENTISTS PLAN COSTLY CHURCH.

EXPECT TO BUILD EDIFICE AT HOLLYWOOD BOULEVARD AND LA BREA AVENUE.

Official announcement is made of the plan of the Fifth Church of Christ, Scientist, in Hollywood to erect a handsome new house of worship at the corner of Hollywood boulevard and La Brea avenue. Frank L. Melius of Hollywood has been commissioned to prepare the architectural designs.

It is stated by those in charge of the project that only a part of the contemplated church will be erected at the present time. The Sunday school portion of the structure will probably be the part to be started first, an auditorium being added later as conditions and the growth of the organization warrant.

Mr. Melius will draw a full set of plans for the building, as it is eventually destined to be, so designing it that it may be erected in units. It is estimated that the completed edifice will cost close to \$100,000.

ARCHITECTS' BARBECUE.
Will Celebrate Twentieth Anniversary of Association With Gathering at Morgan Country Home.
Elaborate preparations are being made for the celebration of the twentieth anniversary of the founding of the Engineers' and Architects' Association of Southern California. This event occurs on September 12.

The afternoon will be devoted to a general high jinks and old Spanish barbecue at Valle Vista, the country home of Octavius Morgan, on the Pothill boulevard, about two miles east of Glendale. Mr. Morgan is a charter member of the association.

The visitors will make the trip in automobiles. At the ranch there will be a programme of sports and athletic events, speeches, etc., with a great "feast of the stomach." Preparations are being made for 150 guests.

Manuel Storrow is the president, and H. Z. Osborne, Jr., the secretary of this organization.

Admiral de Ruyter—Greatest of Holland's Sea Captains
LIKE our own Paul Jones, de Ruyter knew no such word as surrender. His life from boyhood up was one constant battle against the enemies of his country. He defeated the proud English navy in two wars. One of his sea battles with the English fleet lasted four solid days, and ended with the advantage resting with de Ruyter. Later he fought several great naval duels against the combined English and French fleets, and while his victories were not decisive, he won for Holland undying glory. The great de Ruyter abhorred tyranny of every kind, just as do the Hollanders of to-day. When prohibitory enactments are proposed to those of the blood of Holland they vote to a man against it. They are wherever found unalterably opposed to any legislation which would make the many suffer for the faults of a few. Hollanders know that there is no evil in the barley brew and light wines of their fathers—EVIL ONLY IS IN THE MAN WHO MISUSES THEM. In America we have thousands of these splendid people, and Personal Liberty always obtains where they reside. For 57 years Anheuser-Busch have enjoyed the trade of those of Holland blood because every day of these 57 years has been devoted to the honest brewing of Barley-Malt and Hop brews. It is not to be wondered that 7,500 people are daily required to keep pace with the natural demand for Budweiser. Its sales exceed those of any other beer by millions of bottles. ANHEUSER-BUSCH—ST. LOUIS, U.S.A.

Bottled only at the home plant.

We Cordially Invite You to Attend the Formal Opening of Our New Retail Electrical Store This Week

The opening of this great retail electrical store, housing the largest and most complete stocks of electrical appliances on the Pacific Coast, marks an epoch in our history as one of the pioneers in the larger electrical engineering enterprises of Los Angeles. We will carry everything new in electrical devices, such as decorative fixtures, electroliers, automobile accessories, and modern, unique cooking and household appliances. We earnestly invite your inspection during the opening week.

Show Rooms open each day from 9 a.m. to 5 p.m. Rest Rooms for Ladies. Music and Light Refreshments From 2 to 5.

THREE HURT IN SPEEDERS' WAKE.

ATTEMPT TO ARREST MOTORISTS ENDS IN DISASTER.
Patrolman Commanders Services of Motorcyclist, Who Smashes Machine and Cripples Pedestrians—All Three Go to Hospital While Officers Dash Away.

Injury was added to tumult in a chase of twenty blocks yesterday afternoon when a patrolman, a motorcyclist who assisted him, and a pedestrian landed in the Receiving Hospital, while the three of them were still making fifty-five miles an hour, so far as the police know.

Patrolman C. W. Leonard was standing at Avenue 58 and Pasadena avenue when two speed-eating motorcyclists flashed past him. The riders evidently cared not one whit for the law, which limits the speed of a motorcycle to thirty miles an hour, and they were traveling a few minutes later at a speed of fifty-five miles an hour.

Chasing speeders is not within the province of beat-watching patrolmen. Officer Leonard, remarking to the fact that he would not catch any such chaps, commanded the motorcycle of George Woolway, a machinist, living at No. 1115 West Eighteenth street. While the three quivered travel, Leonard drove his machine at thirty miles an hour, and the three were forced to overtake his machine when he was stalled by the traffic. Traveling at that rate they cut across the street, and Leonard, who was making the turn at Avenue 18 and Pasadena avenue and ran into the pedestrian, Fred Gaddout of No. 1113 North Broadway. He received a cut on the head, while Mr. Woolway had several teeth knocked out and suffered from concussion. The patrolman was slightly cut. The three were taken to the Receiving Hospital.

VETERAN SURRENDERS.

Offer of the Regular Army, Honored, Passes Away After Many Years of Suffering.
Lieut.-Col. William Hawley, U.S.A., retired, died at the Good Samaritan Hospital yesterday, aged 80 years. The body is at the funeral parlors of Peck & Chase and will be taken to San Francisco tomorrow for interment, no funeral being held in this city. At the funeral the Military Order of the United States Legion, the United States Legion, and the body and conduct of the funeral services.

For fourteen years he lived in Los Angeles at 1816 Dalton avenue. He was a native of Washington, D. C., and came to Southern California in 1894. He was a member of the Los Angeles Legion, but has occasionally been seen at the gatherings of the Los Angeles Legion. He leaves a widow.

TUESDAY MORNING.

Key-Holder of Fortune Found?

With Hero's Names Said to Be in Tampico.

Fortune Wanted by Order to Settle Valuable Claim. Claimed by Attorney that He Knows Woman Searching for Him.

Dr. L. H. Medici de Biran, the Gen. of the Federals under the regime in Mexico, and whose name Mrs. Evelyn Stevenot of Glenwood, Colo., is seeking him in order to settle an estate, has been reported for several months in Tampico, according to George Du Bois, attorney of that place.

Mr. Du Bois, after reading the article published in the Times, was told by a brother, Fred Du Bois, a well-known man of this city, as well as the sister, who was making her home in Pasadena, where her trace was being sought.

The veterinary surgeon stopped. According to Attorney Du Bois, the Dr. de Biran, who carries a French name from Dumas, took up his residence in the Federals, and was treated in repayment for his services. He was for a time health officer at Cuapio Cienega, Coahuila, where he served as head of a hospital and also as physician.

Wills in Pasadena he practiced the veterinary work, but it is said that he is a duly licensed medical officer and that he graduated from the University of Lyons, France, and then Germany.

Attorney Du Bois took up the matter of his whereabouts immediately. Dr. de Biran stated that he did not know his sister by the name of Stevenot, but that her first name was "Evelyn" and that she had married a man who has property interests in San Francisco. In some way, according to Mrs. Stevenot, the physician seemed to carry off papers which had the key to the fortune left her by her husband, and until she secured them from her brother, she is helping to carry out her endeavors.

From first reports received from Mrs. Stevenot, it appeared that Dr. de Biran was in a few days from Tampico to carry out his search, which she declared would lead her to the ends of the earth if necessary.

Insult and Injury.

THREE HURT IN SPEEDERS' WAKE.

SHOOT TO ARREST MOTORISTS ENDS IN DISASTER.

Commanders Services. A motorcycle, who smashes into a car and cripples pedestrian—All three go to hospital while Officer Dash Away.

It was added to insult in a case of twenty blocks yesterday afternoon when a patrolman, who assisted him, and a woman landed in the receiving hospital, while the riders who caused the trouble were making fifty-five miles an hour as far as the police know.

Commander C. W. Leonard was arrested at Avenue 18 and Pasadena on a speed-sailing motorcycle, while the rider, who was a well-known motorist, was arrested on a charge of the law, which limits the speed of a motorcycle to a maximum of thirty miles an hour.

A few minutes later a motorcycle was heard splashing through the mud on a street, and the officer who was in the first of the two riders had been killed, but the third, who was riding on the tandem, was called to the officer to certain torrid region.

Motor speeders are not within the jurisdiction of beat-walking patrolmen. Officer Leonard, remarking to the woman who had been talking to him, would not hear any such thing, and he ordered the motorcycle to be towed away.

While the three quakes traveled many miles an hour and more, they drove his machine at thirty miles an hour, and he was overtaken by the officer when he was killed by the traffic. Traveling at that rate they could not turn at Avenue 18 and Pasadena, and ran into the street, where they struck a car, and the rider was killed.

While Mr. Leonard was being taken to the hospital, the motorcycle was being towed away. The officer who was in the first of the two riders had been killed, but the third, who was riding on the tandem, was called to the officer to certain torrid region.

Seek Anchors.

(Continued from First Page.)

casually considered, and then, usually, by biased observers. This body will attempt a scientific study of the unbiased nature, will look into the causes which breed strikes, boycotts, and the breaking down of constitutional government in the face of crises produced by industrial friction carried to the point where man has little or no respect for laws.

ITS PERSONNEL.

The commission was created under authority of Congress in 1912, in accordance with the terms of the Hughes-Borah act, but the members were not appointed until June, 1913, and were not confirmed until two months later. In accordance with the terms of the act, not less than three of the nine members of the commission shall be employers of labor and not less than three the representatives of organized labor.

In making appointments, President Wilson apportioned representation equally between employers, labor representatives and disinterested students of industrial problems.

Chairman Walsh is included in the last group, as is also Prof. John R. Commons, and Mrs. J. Borden Harrison, who is detained in New York by the serious illness of her husband.

Mrs. Harrison is a society leader of New York and is well known for her activity in philanthropic work. She was chairman of the Women's Committee during the Wilson campaign. Prof. Commons is a member of the faculty of the University of Wisconsin, a member of the Wisconsin Industrial Commission, and a close adviser of La Follette. Years ago he was considered too radical for a chair in Syracuse University.

William O. Thompson, counsel for the commission, who will conduct the examinations here, was at one time a law partner of Clarence Darrow, but in recent years has been counsel for the National Biscuit Company, in which he is also a stockholder.

OBJECTS OF HEARING.

Mr. Thompson outlined the objects of the hearings here as follows: First, underlying causes of open-shop policy; second, effect of open-shop policy on industrial conditions and methods by which policy is made effective; and third, effect on community.

In addition to the public hearings, the commission has a force of thirty experts at work the country over collecting technical data on every subject bearing on industrial relations. This work is in charge of Prof. Barnett of Johns Hopkins, McCabe of Princeton, Hoxie of the University of Chicago, and McCarthy of the University of Wisconsin. A tour of Europe, which the commissioners had planned in order to acquaint themselves with conditions analogous to those obtaining in this country, and the remedies proposed or being tried, has been necessarily postponed.

The hearings here will complete the commission's itinerary as so far worked out. Hearings en route here were held at Lead, S. D.; Butte, Port-land, Seattle and San Francisco. In the East there have been lengthy sittings in a number of cities, including Paterson, N. J.; New York, Philadelphia and Lawrence, Mass.

Following is the official schedule of hearings in this city, listed by witnesses called:

Tuesday—Gen. Harrison Gray Otis, publisher Los Angeles Times; P. J. Zeehandelaar, secretary Merchants and Manufacturers' Association of Los Angeles; Charles Scott, organizer International Typographical Union; C. F. Grow, business agent International Association of Machinists; Fred L. Baker, president and manager the Baker Iron Works; J. W. Buzzell, business agent Metal Trades Council.

Wednesday—John Craig, president Craig Shipbuilding Company; H. W. Bryson, manager F. O. Engstrom Company; Ray H. Arnold, manager Alta Planning Mill Company; P. J. MacDonald, Los Angeles, Los Angeles Mill Company; Tom Barker, secretary Building Trades Council; J. E. Timmons, president Central Labor Union; C. R. Gore, business agent Carpenters' District Council.

Thursday—H. W. McLeod, vice-president and manager Hammond Lumber Company; Thomas Haverly, president Thomas Haverly Company; O. B. Fuller, general manager Pioneer Truck Company; A. J. Mooney, editor Union Labor; Edward Holme, business agent Plumbers' Union; L. W. Butler, secretary Labor Council.

Friday—W. E. Chamberlain, general manager A. J. Chamberlain & Sons, Inc.; Arthur Letts, proprietor Broadway Department Store; N. Bonello, proprietor Excelsior Laundry; W. T. Bishop, Bishop & Co.; Mrs. Katherine

CONSOLATION.
 People must go the way they came. We may be sorry that they cannot go a better way, but surely we should trust the outcome for them and it will not help if we could or betray our bitterness.

WHOSE THE CENSOR?
 Strange, is it not, that with all the boasting made by our steamed contemporaries about printing news that neither the Express nor the Tribune has reported the demise of the Progressive party in those States which have held primary elections recently? Perhaps they're saving space for one big obituary notice in November.

AMERICANS BIASED.
 The sympathies of the American people in the European war are very pronounced. They are with every suffering, war-stricken nation. We have no racial prejudices that respond to favoritism in this war, and the American people are caught by a four-horned dilemma—we do not want to see either England, Germany, France or Russia beaten.

IT WON'T STOP THE WORK!
 Prof. J. F. Lyman of the Ohio State University says, "If the present rate of increase continues the population of the United States will be approximately 500,000,000 by the end of the present century." And he points out that we will have to turn to agriculture and "Uddle Dame Nature with a hoe" with a great deal of vigor even to begin to furnish a food supply for that host.

BRITISH FINANCES FIRM.
 The August 31 statement of the Bank of England shows British finances firm. The balance in the bank has increased by \$27,565,000. The note circulation has decreased by \$8,085,000. The reserve is \$35,690,000 higher.

WAKING UP.
 It would not be so bad if man was only clay. The pity is that so often it will occur to him that he has not earned the dust we tread. Who can condemn the earth? It bears tree and vine, leafage and fruit, shade and flower. Does your own nature fructify? Are you satisfied with barrenness and thorns? Are the rains, the sun and the air wasted upon you? What is your response to Nature's outpouring at your feet, to its lavish investment of forces in your behalf and in your person?

THE BUGGY.
 It is almost past except the ones that are pushed by hand for infants. Well, it might have expected as much on account of its name. There isn't any such word as buggy. There couldn't be. The attempt to establish it was a failure. It came from nowhere and will go to the same place. If such a vehicle wanted to exist it should have been christened some honest, permanent and reliable name like war. Still we think the buggy can spare humanity a great deal better than humanity can spare the buggy.

A GREAT DIPLOMAT.
 Carranza is a wonder. He has persuaded Villa that he is a diplomat and he has that famed warrior running around setting tempests in teapots, such as the affairs of Lower California at Merico, or the refusal of some band to play "Viva Maytorena" at Hermosillo. This keeps Villa from starting a new revolution. Villa has a fine way of bringing dissenting parties to a point of agreement. He simply decides in favor of one party to the quarrel and tells the other where to get off. Then the other does it.

ONE GOOD RESULT.
 It would not be bad if the high price of beef threw people back on their poultry yards or brought them into the habit of raising chickens again. Those living in apartments can't raise chickens extensively because the birds would interfere with the pot of geraniums on the window sill in the third floor back; but residents of the suburbs such as Garvanza, Huntington Park, Long Beach and San Francisco might very well have a few good hens to supply the table with eggs on week days and with chickens on Sunday. Not to have a chicken dinner at high noon Sunday is a retrogression from American Puritanism.

REFUSING TO RESIGN.
 After thinking it over, why not refuse to consider the resignation of your friends. Every now and then some of them will decide you are not worth while. Sometimes large numbers of them will decide it all at once. All right, perhaps you are not altogether acceptable; you may need a stiff jolt and you probably do, but that is no sign that you deserve to be killed outright. We advise that you take yourself on trust, giving yourself a little more time. What we are about to say is very old. You have heard it many times before. Nevertheless, we advise you to give yourself another chance. Whatever happens to you, whatever or whenever you seem to lose, your one chance is to keep on believing and to try a little harder not to fail yourself or those who do give you a chance. You will suffer for the old, but you will find much of them in the new and perhaps the old are not really lost to you forever. Remember, the rest are human, too, and when they take stock of themselves you may come in for some slight dividend. Anyhow, you will always belong to yourself with a chance for those you want as long as they are alive.

OVERSEAS—THE SITUATION TO DATE.
 The battle almost within hearing distance of the gates of Paris is now at the crucial stage and a decisive result may be expected soon, according to the analysis of the inadequate, but accurate so far as they go, reports from the scene of conflict.

One construction placed on the dispatches is that German strategy has achieved all it set out to do; and "a terrific German victory over the allied forces" is said to be forecast even by the official statements given out by the London and Paris governments. By turning movements on the flanks of the allies the Germans are said to have obliged the French Gen. Joffre to reduce his center to strengthen the flanks. In the meantime, at Nancy, it is said, the Kaiser personally has assembled an army of "immense plunging power" to wedge in on the weakened center of the French and English. The time it takes this army to set from Nancy to a point thirty or forty miles east of Paris is, then, the time required for knowing whether the Franks or the Germans have won.

Another construction of the dispatches is that the Germans have drawn in their forces on their right from all directions to make the supreme effort to break through the allies' line. On the west Von Kluck is said to be trying to withstand the superior force of French and English. If the allies hold fast at Vitry their turning movement on their left flank will seriously threaten the German right. This construction requires the inference that the whole issue depends on the ability of the allies to hold their center firm.

Interest in the theater of war on the Russo-German border yesterday while it waxed on the western border, but the Turkish Ambassador to the United States managed to divide the attention of the world with the statement that England and France have set a "vulgar trap" to inveigle the Christians into the war with stories that Christians in Armenia and Turkey and that an American warship is urgently required to save them.

THE MISUSE OF "LABOR DAY."
 It is unfortunate that the observance of Labor Day has passed completely into the hands of the unions.

Labor Day was supposed to be set aside for laboring men and women; not for an organization, a secret, oath-bound organization that represents but about 10 per cent of the workers of the nation and is bitterly discriminating against and hostile to the remaining 90 per cent.

The members of unions have arrogated unto themselves charge of the ceremonies and sports of the day. They not only try to make it strictly a "Union Labor Day," but bag out laboring men who have no affiliation with the unions.

Those in charge of the field sports refuse even to let a laboring man run in a sack race unless he has a union card. The "free beer" is passed around only to those who pay dues to a secret, oath-bound organization, and it is made manifest in every possible way that the first Monday in September is not the laboring man's day, but the day for celebration and parades, picnicking and sports by members of secret societies called unions.

They take this advantage of their fellows with the desire to make it appear that the unions are really in control of labor on this day, as on others, the unions insist on declaring that they are the bulwark for the protection of labor. But the unions (containing 10 per cent only of American workers) not only do not protect the 90 per cent whom they do not represent, but fight, persecute, blackmail, bludgeon and sometimes murder them.

And it is a shame that they should not only be able to override the laboring men and women whose day it is, but be allowed to impose upon the citizens as a whole the fallacy that Labor Day belongs exclusively to unions. It is a shame that any secret organization should be permitted—as the union is in many places—to declare itself the representative of a great body of people who are not in sympathy with it and do not support it.

Labor Day should not be Gompers's Day, or Meyer's Day, or McCarthy's Day. It belongs to the men and women who labor. It is not union day, for the unions can't muster more than a tenth of the people who work in this country. It is for all laboring people and should be observed as such. If the things are to go on in the future as they went yesterday it would be well to relieve all misrepresentation by bluntly calling it "Labor Union Day"—and cut it out of the legal holiday list.

OUTCOME OF THE WAR.
 The economic effects of the European war upon the United States, both immediate and ultimate, are largely a matter of conjecture. That the industries of Germany, Austria, France and Belgium will be disrupted, and those of Great Britain seriously affected, is conceded by all writers on the subject, but there is no consensus of opinion as to the exact form that the disruption will probably take, or how long it will endure after the war shall come to an end. A vast number of the laborers of the countries at war have enlisted, or been conscripted, or mobilized into soldiers. In London 1621 employers of labor have signed an agreement to pay their workmen who volunteer into the army the difference between army pay and the wages they had been receiving, and to keep their places open for them at the termination of the war.

The greatest check to production will take place in Germany, France and Belgium, not only because millions of workers have gone or been "reserved" into the army, but because the labor of those who are retained at home has been largely applied to the creation of weapons, munitions and supplies for those in the field.

The Biggest Noise.

velopment of our own industries as will soon restore prices to their former level.

We shall for a time lose our foreign market for foodstuffs and raw cotton, both because of the new industrial conditions in continental Europe, and because of the diminution of facilities for transportation in foreign bottoms. The latter cause will disappear when the new registry law shall result in the transfer to the American flag of the foreign ships now embargoed in both European and American ports.

This last factor will really be the dominant one. In the wars of the first Napoleon 100 years ago the carrying trade of the world was transferred to the United States and it was some years after Waterloo before Great Britain again became our rival on the seas. But France and England were then actively engaged in destroying each other's commerce. Now they are united and have almost succeeded in driving Germany and Austria out of the seas. The difference between the allies and Germany in this respect is that while war risks on British vessels are 20 per cent, they are 50 per cent on German ships, and even at that figure insurance is obtained with difficulty.

That the United States will, by the operation of the new registry law, rapidly recover her rightful position as the leading maritime power of the world seems altogether probable. This, combined with an immediate and enormous growth of our manufacturing industries, and a more eager market for our agricultural products, will bring to us conditions of unparalleled prosperity, and the politico-economic problem will then be to make permanent these temporary conditions.

Dr. Seligman, professor of political economy at Columbia University, is inclined to take pessimistic views of the ultimate situation. He says:

"When we leave the immediate effects of the war and come to the ulterior results the situation is complicated. The prodigious destruction of capital which is to be expected the world over will also affect the situation here. As the European countries would need much of their future surplus to replace the ravages of the war, there would be so much the less to invest in the United States. Our tempo of progress will therefore become slower. The relative decrease in the amount of available capital will mean a higher rate of interest, with all its ensuing discomforts. Specifically also, this will mean a further fall in the price of securities and especially of bonds, government as well as railway and industrial. The tendency of wages, also, throughout the world will be downward because dearer capital means less efficient production, and less efficient production tends to a lowering of wages."

The Times is unable to share the apprehension of Prof. Seligman. It recalls the statement of Macaulay, that the most wasteful administration of government have never reduced the average wealth of any English-speaking people half so fast as the individual efforts of every man to get on in life have built it up. It recalls how the French people, conquered in the Franco-Prussian war, with Paris in the possession of the Germans, and Alsace and Lorraine lost to them, in a short time paid the war indemnity of \$1,000,000,000 exacted of them by Germany, and traveled the road to prosperity with giant strides. It recalls how our Civil War debt of \$2,775,356,173 was in fifteen years reduced nearly \$1,000,000,000, and how our population has increased since the war from 30,000,000 to 100,000,000, our aggregate wealth from \$7,135,780,000 to \$107,104,211,917, and our wealth per capita from \$307 to \$1310.

The American consumer may be, as Prof. Seligman suggests, compelled to make some sacrifices by his willingness to suffer high prices (if prices climb any higher than they have done during the last few years of world peace they will have to advance very rapidly.) But high prices are relative, and the worker who pays more for food and clothing cares more with which to make the payment.

The great war in Europe will bring devastation to her industries, but the men and women who will survive it—Germans, French, English, Belgians, Austrians, Rus-

sians and Serbs—are industrious, energetic and indomitable. They will in a few years regain their own prosperity and contribute to ours.

EACH MAY WIN AND LOSE.
 Owing to the wide distribution of the war operations it may easily come to pass that both sides will be victorious and vanquished at the same time in different regions.

Germany might defeat the allied forces and simultaneously be defeated by the Russian army. Great Britain might be victorious over a part of the German navy while other German warships, perhaps operating in company with some of Austria, might gain victory over ships of France. Or there might be other combinations of victory and defeat for both sides, at different points of contact of their forces, which would leave success and failure pretty well balanced for both, with the great decision still remote.

In fact, it is extremely doubtful if, in the near future at least, the tide of advantage can be turned decidedly in favor of either side. A test of naval forces seems to be avoided by all the nations. It seems even that the added complication in Asia will not soon precipitate a naval engagement. That may well be because German ships of war in Asiatic waters are hopelessly outnumbered by those of Japan and the European allies. Thus far the latter seem to be content with a blockade of Tsing-Tao, the port of Kiao-Chow, whose relinquishment by Germany Japan has demanded and will endeavor to compel.

Perhaps sooner or later the inability of either side to make a sweeping conquest will impress upon all the warring nations the fact that they must take steps toward negotiations for the restoration of peace to save themselves from utter ruin.

THE HARVEST.
 WALT MASON IN "THE TIMES."

The kings and the colonels, fatigued by the strain, are writing their journals of losses and gain. "We've conquered a city, we've smashed a rebellion! Oh, sing a glad dirge, with jubilation shout!" The dead men are lying out there on the plain, and women are crying and children complain. The kings and the colonels in blood do not wade; they judge by externals the progress they've made; in tents over yonder they're painting maps red; they don't have to wander through windrows of dead. They're so busy trailing the foe to his lair, they don't hear the wailing, the shrieks of despair. "We've captured a village and seventeen farms!" They're given to pillage—God favors our army! But dead men are lying out there in the rain; the wounded are dying—your triumph's in vain. In darkness and sorrow the widowed ones wait, still hoping tomorrow may bring to the gate, the step of some darling who went forth alone, when nations were snarling like dogs for a bone. In vain is their sighing, their watching is vain; the loved ones are lying out there with the slain.

About Words.
 Fairy was once a beautiful woman. Refer once meant only to carry back. Confer was originally simply to carry with.

Jade originally signified any rude person, without regard to sex.
 Craven was at first a man who had craved or begged his life of an enemy.

Voyage was formerly any journey, whether by sea or land. It did not matter. Farewell originally signified "may you fare, or travel well, or in safety."

Primrose was at first the prime rose, or the first rose that opened in spring.
 Polite at first meant polished, and was applied to any smooth shining surface.

The word ascertain formerly meant nothing more than to make certain of a fact. The word idea formerly meant a completed performance, whether mental or physical.

A MILLION CONFESS.

BY WILLIAM M. BRISTOL.
 I am the Republican voter who delivered the land into the hand of the Democracy and into the psychological slough of despond. My name is legion and my home is in each of the forty-eight States of the Union. All my life I have been a Republican and have discoursed in glittering generalities of the beneficent Republican national policies. Whenever State or national elections have called I have not failed to respond and have regularly cast my ballot for the nominees of the old party.

I confess, however, that I have been too busy to do more than that. When the caucus and preliminaries have been held I have always been busy with a land deal or a hog killing, with the result that those fellows who are called "the machine" have been the only ones present at the party's conference, and, being the only ones present, have dominated the doings and named the nominees. It is true that these machineists are hopelessly in the minority, from a numerical standpoint, but the very numerous minority has enabled them, in large measure, to have things their own way.

Two years ago a man who had been one of our noisiest Presidents became obsessed with a desire for a third term. He had been chosen President in the usual way; that is, he had been nominated by the minority and elected by the majority. But when, in response to his request for a third term, this same minority said him nay, he arose in his wrath and cried in a loud voice, "Bosses!" And so loudly did he cry that I, the Republican voter whose name is legion and whose home is in the forty-eight States, believed him, and, to get rid of the bosses, went out of the party and voted for the man with the loud voice, or for Woodrow Wilson.

I confess that I am guilty—equally with the loud voice—for what has happened to our national prosperity. I confess that I helped increase the importation of goods made by the cheap labor of Europe. I confess that, because of my vote, thousands of tons of eggs are pouring into this country from China. In my wrath at the bosses I said that a reduction of the tariff would hurt no one but the trusts and the millionaire fruit growers of California. I did not foresee that the cheap Chinese eggs would deprive a million families of the pin money they were deriving from their back-yard flocks. I forgot that when the trusts and the railroads and big business prospered they had more money to put into extensions and betterments and that they employed more people to make these improvements. I did not know that these big corporations or even the so-called wealthy people had very little ready cash, and that, in fact, they had just as much difficulty in making ends meet as do the middle classes.

For all these reasons I listened to the hunter who went to Africa in search of an Elks—which he found not—and who more recently discovered in South America an alleged river which, in reality, is merely Great Salt Creek. I confess that when the Chicago convention nominated William H. Taft for a well-earned second term I went off after the loud voice that broke away from the old party. The mellifluous strains of a thousand Pied Pipers filled my ears and over all there came, for about the space of two hours, the obligate of a megalomaniac who cried, "Great is Bwana Tumbo of the Progressives!" I confess, I confess, I confess: I believe in the principles and doctrines of the Republican party, in its mission and its destiny. I believe in the righteousness, the sanity and the soundness of its precepts. I believe in the duty of every member of the party, in spite of land deals or hog killings, to attend its meetings and to concern himself with its affairs and its doings. If bad men seek to control the party I believe it the duty of the rank and file to throw them out and to make its gatherings as public and open as were the old-fashioned New England town meetings.

On the basis of brotherly love we should not make the people of foreign countries pay gate money when they come here to sell their products—but a nation must look out for its own welfare or it will cease to be a nation. I believe that the Republican party stands for national progress and prosperity, and that when its precepts are heeded it travels in the direction of the well-meant end. The Johns, the Johnsons and the other loud noises that have bewildered the rank and file are growing faint in the distance and that a period of national sanity is at hand.

Banishment of old, to escape the penalty of his folly, pulled the house down upon himself and upon the others who were in it. I, the Republican voter whose name is legion, went out of the house to escape the evils that were within. I have come back in the language of that southern Congressman who was twitted with having been a secessionist. "I am in the house of my fathers—and I am here to stay!"

SOME CIGARETTE FIGURES.
 The "hopeless handicap" which cigarette-smoking puts on our youth impels Mr. C. W. Baines to ask in the Philadelphia Sunday-school Times whether it is not "about time that our Sunday-school leaders were beginning to sound the warnings" against this habit. With its "attendant evils, the saloon and vice," he says, it is "sapping the mental and moral stamina of America's young men, gnawing at the very vitals of their physical well-being." He cites from the records of Harvard University the fact that "for fifty years no one tobacco habit has stood at the head of its class, although five out of six (83 per cent.) Harvard students use the weed." On the whole, according to the writer, cigarettes hurt in some way "everyone who smokes them," and he is dismayed to find the habit on the increase, as one may judge from the government report which shows that in 1913 "we consumed the amazing number of 14,530,486,200" cigarettes, "an increase of 2,156,633,708 over the previous 'banner cigarette year.'"

These 201 college students were divided into three groups:
 Habitual smokers . . . 41 students. . . 20.4%
 Occasional smokers . . . 132 students. . . 65.9%
 Non-smokers . . . 68 students. . . 33.7%
 Note that more than one-half of the men who pursued their studies to the point of entering college were non-smokers. (Non-smokers enter college about one year younger than smokers.)

Of the total college enrollment, thirty-one students were either dropped or required to take an extra year to complete the prescribed course of study. Of these thirty-one men—
 The habitual smokers supplied sixteen students, or 51.6 per cent.
 The occasional smokers supplied eight students, or 25.8 per cent.
 The non-smokers supplied seven students, or 22.6 per cent.

New Kind of Thief.
 [Yonkers Statesman:] "Sam, I see by this paper that an electric burglar alarm has been adapted for the chicken coop."
 "Well, boss, I hope I goodness my neighbors don't hear about dat. They is 'spicious enough as it is."

"School days, school days, good-bye, on rule days."
 No more tangoing on the sands of Monica. It makes even the tide men weep.
 Anyhow, the handit Raimi died in That cannot be said of all of his kind.

We take it from many of the dispatches that really nobody is getting the war it in the war.
 England, France and Russia have been to hang together lest perchance they hang separately.

With the arrival of President Wilson, latest envoy in the City of Mexico, we expect fuller reports.

Under the registration law the American flag will now take her proper place in the seas of the world. Hurray!

Why not stand the standing table of the Pacific Coast League on its head and let the Venice Tigers a chance?

The rumor that Kaiser Wilhelm had dropped out of the running for the peace prize this year is confirmed.

Speaking from a sewing machine of view we would say that the German fellows are hammering in the allies. They have not dropped a stitch.

Fashion has decreed that the men wear white socks. But we rebel, and long to have our ankles bound by the horse suffering from the cracked heels.

With two Ohio men on the job in Ambassador Herrick and to-be Ambassador Sharp, American interests will well cared for on the banks of the Ohio.

"Holy Hi" Johnson will tour the country in an automobile for two months, hopes to win he will have to go last to make him amenable to the speed of the motor.

Some legal means ought to be found to deprive Eshelman of his financial and political gains. Petty larceny is more popular in politics than it is in the court.

Mexico will have a convention to arrange for the coming Presidential election. We presume they will have the argument about the basis of representation from the Southern States.

This week is the one hundredth anniversary of the writing of the "Star Spangled Banner," and "Old Glory" never waved such triumph nor stood so high in the admiration of the civilized world.

It is not a bit too early for Los Angeles to get ready for the entertainment of the National Assembly of Real Estate Agents changes next year. It will be up to town to do the handsome thing.

An old man smokes a cigar slowly and contemplatively, looking at the ash occasionally and clearly indicating seeing it grow. He keeps the ash at the end of the cigar as long as he can, brings back memories of his youth.

President Wilson will have a job on his hands naming the members of the proposed Interstate Trade Commission. The way to be absolutely certain that the peace world will not be made the victim of false theories and radical notions was to appoint business men on the commission.

The nations approached by President Wilson in the interest of peace have refused the well-meant tender. But when the offer for an honorable peace comes the United States stands ready to help them, their police and arrange to compare the difference in a civilized, humane and Christian manner.

Six hundred thousand men and women are directly interested in the affairs of the New York, New Haven and Hartford Road Company, the company that has singled out for persecution under the act of prosecution by the government. It is the largest employer of labor in the eastern section of the country.

But for the Democratic Congress that moved the protective tariff from sugar and paralyzed the beet sugar industry, we should not now be at the mercy of the world's sugar markets. The supply of sugar has been cut off in Europe by the war, and England bought 40,000 tons of sugar in August, bidding up the price in the market. An import duty on sugar would have exposed our consumers to the fluctuations of the European market, even of war, but the Wilson administration knew better.

PEACE HYMN OF THE REPUBLICAN

BY HENRY VAN DYKE.
 O Lord, our God, Thy mighty hand has made our country free;
 From all her broad and happy lands Thy praise arise to Thee.
 Fulfill the promise of Thy youth, her peace defend;
 By law and order, love and truth, America befriend!

The strength of every State depends on the strength of the Union.
 Her thousand cities all with peace and million fields with grain.
 The virtues of her mingled blood are new people blend;
 By unity and brotherhood, America befriend!

O suffer not her feet to stray; Just lead her untaught might;
 That she may walk in peaceful days, and lead the world in light.
 Bring down the proud, lift up the low, equal ways amend;
 By justice, nation-wide and sure, America befriend!

Thro' all the waiting land proclaim the gospel of good will;
 And may the music of Thy name be heard in every thrill.
 O'er hill and vale, from sea to sea, Thy holy reign extend;
 By faith and hope and charity, America befriend!

the First.Slim Love the Victim of Late
Rally.Ragged Fielding Helps Beat
Pernoll.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SAN FRANCISCO, Sept. 7.—Labor Day was no joke for the Seals, since they labored from early in the morning until late in the afternoon. Booting one away from the front, when the Angels came to the front with a score of shutout, the San Franciscoers reserved their fireworks and the holiday procession for well into the afternoon.

With a 3-to-1 defeat starting them in the face right up to the last of the eighth inning, the locals started a parade around the bases that left Slim Love so far snowed under that there was no hope of his being hit when the trouble was ended. He stayed heroically by his post as a series of the San Franciscoers flashed around the bases, and then discovered he was beaten, 5 to 3.

Two of the Angel runs were gathered in the first inning, in which Capt. Fanning found most of his trouble. Harry Wether single and took second on a bad throw by Fanning, who wanted to catch his man off first. Metcalf tied to right, but Metcalf tripped to left, and Wether was registered himself on a double by Rube Miller. Charles made the circuit in the second, when Page booted a grounder. Roy Corhan swatted to center, and on Schmidt's out Chappie rushed home.

After that and until the eighth the Seals simply could not get a start. Los Angeles scored one more tally in the ninth. Jerry Downs slipped with the bases full and two outs, thereby presenting the Angels with the big run. Later on he snuffed a liner right at him, and Corhan followed with an error that paved the way for three runs. With such ragged fielding it is easy to figure a 4-to-0 shutout for the Angels.

Perritt enjoyed one of his good days on the mound. He scattered three singles in the nine innings and was rarely in trouble. Howard Munroe tore off two of the blows and Young Bob Jones, sent in as a pinch-hitter, delivered with a clean smash to center. In rendering support the Angels shined brilliantly, Margert making a couple of running catches that were sensational and the infield pulling off two double plays.

Hub Pernoll pitched a light ball and might have been competing with Perritt yet save for the errors at his back.

The scores:

		A.	B.	C.	D.	E.	F.	G.	H.	I.	J.	K.
Wether, 15	1	1	2	7	1	1	0	0	0	0	0	0

Single Hit.

The Parrot Has Got Mrs. Wad's Line of Chatter Down Pretty Fine All Right!

By Gale.

SIENNA TAKES BIG FEATURE.

McCloskey Wins the Opening Heat.

but the Mare Has It Easy After That.

Louis McGregor Withdrawn from Race.

(BY A. P. NIGHT WIRE.)

HARTFORD (Ct.) Sept. 7.—The horse race Sienna, by Peter the Great, owned by P. J. Schilling, of Hartford, won the historic Charter Stakes, valued at \$10,000, today at the opening of the Grand Circuit racing in connection with the Connecticut fair, after McCloskey had won the first heat.

Murphy's Lassie McGregor, the big mare winner of the year, showed a new side just before the race and was withdrawn. Sienna was pushed by the second heat by The Guide and the third heat by the Guide and the fourth heat by the Guide.

The Corinthian 2:18 trot purse, won by the second heat, only to be displaced in the second, and the Tempus took the last three easily, getting first, third and fourth money.

Sienna, 2:18 trot, three in five, pure bred, by P. J. Schilling (owner), won the historic Charter Stakes, valued at \$10,000, today at the opening of the Grand Circuit racing in connection with the Connecticut fair, after McCloskey had won the first heat.

McCloskey, 2:18 trot, three in five, pure bred, by P. J. Schilling (owner), won the historic Charter Stakes, valued at \$10,000, today at the opening of the Grand Circuit racing in connection with the Connecticut fair, after McCloskey had won the first heat.

McCloskey, 2:18 trot, three in five, pure bred, by P. J. Schilling (owner), won the historic Charter Stakes, valued at \$10,000, today at the opening of the Grand Circuit racing in connection with the Connecticut fair, after McCloskey had won the first heat.

MISSIONS HOLD BEAVERS EVEN.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Sept. 7.—Portland retained her leadership in the Pacific Coast League today, neither advancing nor slipping back. She divided a double-header with the Missions, eastwhile Sacramento, taking the morning game in this city 7 to 6, and dropping the afternoon contest at Oakland 4 to 3.

The scores:

Morning game:

Portland, 7; Missions, 6.

Afternoon game:

Oakland, 4; Portland, 3.

Portland, 7; Missions, 6.

Oakland, 4; Portland, 3.

Portland, 7; Missions, 6.

Tigers and Oaks Divide.

(Continued from First Page.)

Charley-horse after the Tigers bunted repeatedly in the first inning and made a run without a man being credited with a time at bat. By the way it was the only Bengal tally.

How the runs were made is wholly immaterial. It was simply a case of slugging and McDonnell showing McCarthy why he was right in calling a man out who was safe, while runs scampered over the home plate like the first drops of a thunder shower.

In the first encounter the Tigers scored in the third, sixth and eighth innings.

In the third McDonnell walked to first, took second on a wild pitch and scored on Leard's single. In the sixth, Leard singled, went to second when Whitworth duffed and scored while Quast was playing with the ball. In the eighth Whitworth singled again, stole second and went home on McDonnell's drive.

Christian shook hands with several important personages when leaving the park. Of course he had lost the series six games to three, which is ordinarily a disgrace, but the afternoon encounter gave him a right to shake hands like a politician if he so desired.

The scores:

Morning game:

Oakland, 6; Tigers, 3.

Afternoon game:

Oakland, 6; Tigers, 3.

Oakland, 6; Tigers, 3.

Oakland, 6; Tigers, 3.

Oakland, 6; Tigers, 3.

Big Fight a Frost.

(Continued from First Page.)

hit, and did not hit a single effective blow during the whole twenty rounds. He slaps with his right and left hand, and never during the whole contest delivered a single blow that would make any boxing fan believe he had a punch.

He was aggressive and willing at all times and as game as any boxer who ever entered any ring. But he should be in the wrestling game instead of being a touted lightweight boxer.

He won the sympathy of the fans by his so-called gamesness and from being the under dog from the first round to the last, with the single exception of one round, which in my opinion he won.

Beecher was warned constantly by Referee Charlie Epton for holding and clinching, and for hitting low.

SOME HOLDING.

During the twenty rounds of so-called boxing there was just exactly 141 clinches, that took a great deal from the real boxing and in every case Beecher was the first man to hold on.

The repeated warnings Epton gave Beecher did not stop him in the least from holding. He also hit Rivers several times below the waist line, and Epton would not allow the claims to go, as they did not seriously hurt Rivers. I entered Rivers's dressing-room immediately after the contest and he showed two fresh and red marks where he had been hit on his hips, besides a number of other bruises. The marks were fresh and red, proving conclusively that they had been delivered within the last hour of the contest.

Giving Rivers all credit coming to him, he did not make a single mistake, he was undoubtedly hurt.

As for Rivers, he did not seem to put up his usual classy contest. This may be accounted for from the fact that Beecher walked into Joe with his left hand held high, his left shoulder covering his chin, and his right hand gloved over his face, which made it almost impossible for Rivers to land an effective blow on his chin.

Rivers has not the generalship to figure these things out himself, and never did and never will win a contest without a good second in his corner in whom he has confidence.

John Reider made a great howl after the decision was given, but he did not have any kick coming to him.

He said before the contest that Beecher would surely knock Rivers out and if he did not do so, would not say a word or have a kick coming.

I saw "Booster John" after the fight and he had a big squeal coming, saying that Willis was robbed, and furthermore said, "Willis was not intimidated and had two bad hands to fight with." Now, John, be a good sport and admit that Willis is not there with Joe Rivers.

THE SECOND.

Rivers was seconded by his brother, Andy; his manager, Joe Levy; Willie Rooney, and Mike Fusco, his training partner.

Beecher had his manager, John Reider; Joe Lewis, his trainer; Harry Lee, trainer of Leach Cross, and Benny Palmer.

There was the usual long delay after the preliminaries before the main event entered the ring, much to the chafe of the audience.

The first preliminary, between Paddy Mills and Jimmie Hanlon of Denver, was won by Hanlon after four rounds of fast boxing.

The second, between Johnny Reese and Len Powers from Portland, was won by Reese after four rounds of fast boxing. Reese was too heavy and strong for Powers.

The semi-windup, between Eddy McAsiffa, Earl Mohan's boxer, and Earl Puryear, was won by Puryear after ten rounds of very fast and clever boxing. McAsiffa made a little match and these boys would be worth seeing again over the same distance.

Puryear is one of the best boxers seen here since Eddie Camp made his first appearance in Vernon.

MASSACHUSETTS WINS SHOOTING.

(BY A. P. NIGHT WIRE.)

SEAGIRT (N. J.) Sept. 7.—Massachusetts captured the divisional team match in today's matches in the annual Seagirt tournament. The Bay State men outshot their competitors in all seven stages and at the end of the shooting a lead of sixty-four points over the marines, who finished second. The match was shot at 800, 600, 400 and 200 yards, slow fire, and 300 and 200 yards, rapid fire. The total scores follow:

Massachusetts, 1720; Marines, 1656; New York, 1643; District of Columbia, 1597; New Jersey, 1588; Army, 1571; West Virginia, 1548.

DULUTH TAKES DOWN PENNANT.

(BY A. P. NIGHT WIRE.)

WINONA (Minn.) Sept. 7.—The Duluth team, managed by Darby O'Brien, won the pennant in the Northern Baseball League, which closed its season today. New attendance records were established in several towns and the season was a success financially.

San Luis Obispo's Tank Farm to
Care for Millions of Barrels of the
Union Company's Output.

San Luis Obispo, Sept. 7.—The
oil storage capacity at the Union Oil
Company's tank farm west of this
city is to be increased. The Llewellyn
Iron Works of Los Angeles has
contracted for the construction of
four steel tanks of 55,000 barrels
capacity each and has all the material
on the ground and will begin work at
once.

With the completion of these new
tanks the storage capacity will include
thirty-six tanks of 55,000 barrels
capacity, two reservoirs of a million
and a half barrels each, and two con-
crete tanks of one million barrels
each.

Ida M. Smithers, mother of
City Treasurer W. W. Smithers, and
one of the pioneer women of the
county, died Saturday at her home at
Cambria, in this county.

THOUSANDS IN MOUNTAINS.

THOUSANDS OF persons from various
points in Southern California visited
the mountains back of this city yester-
day and Sunday. It is asserted that
a record-breaking crowd passed
through the Arroyo Seco on its way
to the cañons hidden in the moun-
tain recesses.

Hundreds climbed the trail to Mt.
Wilson and auto buses were crowded
far into the night, bringing the foot-
sore and weary from the mouth of
the Arroyo Seco to the terminus of
the car lines.

The proposed issuance of bonds
for fire protection is meeting
with some opposition in this city.
At a recent meeting of the City Com-
missioners the City Attorney was in-
sisting upon the necessity of a bond
ordinance to submit to the people.
The sum asked is \$288,154.55. The
authorized increase in the city treasury
is \$105,439.

CROP REPORTS.

POMONA, Sept. 7.—At the annual
meeting of the Indian Hill Citrus Un-
ion the new board of directors elected
is composed of E. E. C. Robinson, W. A.
Fox, D. C. Crookshank, F. L. Palmer,
H. B. Davis, J. E. Crawford and E. F.
Sederholm.

The association has had a success-
ful season under the management of
F. W. Knight, Jr., having already
shipped 500 cars of oranges, and has
paid \$242,000 to the growers who are
members of the exchange.

The association still has about a
hundred carloads of Valencia oranges
to ship. An automatic fire protection
system has been installed in the
packing-house and other improve-
ments have been made.

Preparations are being made for a
busy coming season for the young
oranges have set well on all of the
trees. The Indian Hill Citrus Un-
ion now controls the fruit
from 500 acres in the North Pomona
district.

The peach season here will close
about a month earlier than usual, the
crops having been very favorable
for the early ripening of the fruit
and as a result the Pomona cannery
will close a successful run of 2,000-
000 cases of peaches within a day or
two.

The force has been working to its
full capacity for a week. The fruit
that has been packed this year has
never been exceeded in size and qual-
ity, and has brought a large amount
of money into this community.

A. B. Hill, who is the largest in-
dividual grower of deciduous fruits
here, has finished picking his peach
crop of 300 tons, which was sold, part
to the Pomona cannery and part to
the Golden State cannery at Ontario.

He has also completed the shipment
of five cars of Kelsey plums to the
East. His apricot crop was all dried
this year at the Pomona Canning
Company's plant.

Long Beach.
WALTHER PLANS
OF LUTHERANS.

National Convention Here
Early Next July.

League Officers Elected for
Southern California.

Long Beach People Injured
in Auto Wreck.

LONG BEACH, Sept. 7.—Plans for
the entertainment of 5000 delegates
to the national convention of the
Waltther League, to be held in Los
Angeles next July 10-11, were laid
at the annual Southern California con-
vention of the organization held here
today at the First German Lutheran
Church at Tenth street and Linden
avenue. The Waltther League is a
nation-wide federation of young peo-
ple of German Lutheran churches.
The four days of the convention
will be divided into work and play
sessions at the Trinity Lutheran Church,
Los Angeles, and the afternoon will
be occupied with sightseeing at Cata-
lina, Mt. Lowe, Long Beach and other
points of interest. Fred C. Deubert,
delegate to the national convention
at Cleveland, was present and gave
details of the successful campaign
which landed the convention for Los
Angeles.

NEW OFFICERS.

Officers of the league were elected
as follows: President, A. O. Appel,
Pasadena; first vice-president, Ed-
ward Rising, San Diego; second vice-
president, Martin Donohoe, Los An-
geles; committee recording secretary,
Arthur Lange, Los Angeles; English
recording secretary, Miss Hertha Eh-
lan, Orange; treasurer, Miss Carrie
Ahn, Los Angeles; field secretary,
Adolf Scheel, Long Beach; assistant
field secretary, Alfred Fries, Orange.
Delegates representing churches at
San Diego, Los Angeles, Orange, Santa
Ana, Vernon, Boyle Heights and Pa-
sadena were present.

In the afternoon the delegates gath-
ered in Bixby Park for a series of
sports. The winners were: Throwing
baseball, Miss Sophie Schuster; nail-
driving contest, women of Orange
church delegation; hopping relay
race, ladies of Orange church; men's
race, Arthur Lange, Los Angeles;

walking race, Edward Hilgendorf, Los
Angeles; men's baseball throwing,
Max Durrhammer, San Diego; and
many others. The party went in auto-
mobiles.

Long Beach people were bruised
and cut when the Colgin auto turned
completely over at Seventh street and
Cedar avenue at 3:30 o'clock this after-
noon. Mr. and Mrs. D. F. Colgin,
No. 133 Cedar avenue; Mrs. H. Junod,
mother-in-law of Colgin, who was
driving; Harvey Colgin and Miss Min-
nie Junod, No. 517 East Hill street,
were in the auto.

Colgin turned too sharply and the
occupants were partly buried beneath
the machine. By great effort Colgin
rescued the other occupants. Mrs.
Colgin is the most seriously injured,
suffering from a lame back.

BEACH BRIEFS.

Chief of Police Cole received word
this afternoon that W. B. Fuller, alias
Leonard, wanted here on the charge
of passing checks, was captured at the
mouth of the Arroyo Seco. He was
likely to be brought here for trial
to answer. Fuller was captured

through a bulletin issued by Chief
Cole, which cited the customs of Ful-
ler in saying that he was "making
purchases for his sister" when he pre-
sented bad checks.

Mr. and Mrs. F. S. Volk, No. 154
Chestnut avenue, have received a let-
ter from their son, Byrne Volk, now
completing his musical education in
Europe, which says he has gone from
Germany to Philadelphia, Bulgaria. He
states that there is plenty of food in
Bulgaria.

Know His Shortcomings.

[Cleveland Plain Dealer:] "What
on earth are you crying about, little
boy?" asked the neighbor who was
strolling by an East End dooryard the
other afternoon.

"Because I'm so mean an' selfish,"
sobbed the little one.

"Oh, I guess you're not very mean
and selfish if it affects you this way,"
commented the passer-by. "What
makes you think you are?"

"See this bread-an'-jelly? Well,
I'm so mean that I give it all to
a-go-in' to give Willie none of it.
Boo-oo-hoo!"

SAnta Monica.
The rifle was carried "broken," the
barrel being in itself a complete gun.
The couple had come to the beach
from their home, No. 341 Francisco
street, Los Angeles, yesterday after-
noon, to spend the two vacation days
at the shore. They rented a tent near
the Long Wharf and were enjoying
the vacation. Semenouk works as a
mechanic for Aviator Glenn Martin.
He was formerly a student of the
Bieriot school in Paris, but flew in
Russia and also in parts of the East.
Mrs. Semenouk was a student in the
University of Southern California and
was qualifying for a teacher's certifi-
cate. She was to have finished in
January. A child lives with the moth-
er's parents in Vienna, Russia.

Semenouk met his wife in Paris
at the Sorbonne, where she was at-
tending school. He was flying under
the Bieriot Aviation School instru-
ctors. They came to America and were
married in New York in 1911. Later
they moved to Milwaukee, where the
child was born. Another year passed
and the child was taken to Fagor
Grachoff, the grandfather, at Sary-
pul, who cared for the child while
she attended the university. She re-
turned to this country and then they
moved to California, where for the
past year the Russian has been en-
gaged with Glenn Martin as an
aviator and mechanic.

Semenouk is being held by the
sheriff, while the body is at the
mortuary awaiting funeral arrange-
ments.

Alhambra.
"PEEPING TOM" CAUGHT
AND DRIVEN FROM CITY.

[LOCAL CORRESPONDENCE.]

ALHAMBRA, Sept. 7.—There are
many young girls and unprotected
women in San Gabriel, Ramona
Park and this city who are
giving thanks tonight because there
is no longer a "peeping Tom" in the
vicinity to disturb their repose by his
nocturnal quests.

Julius Teach has two weaknesses,
one is peeping, the other drinking
milk without due regard as to whom
the owner might be. Because of his
fondness for milk he ran into the
strong arm of the law at an early
hour this morning.

In response to complaints made
by John H. Snyder of No. 521 South
Marguerita street that his milk was
being stolen, Constable Parker lay in
wait this morning and caught Teach
in the act of emptying the milk bot-
tle. Without resistance Teach went
with the constable to the City Hall
and later in the day was taken before
Judge Northrup.

Begging for mercy, Teach promised
that he would leave the city for all
time, the women are heaving sighs
of relief and many will enjoy sound
slumber tonight for the first time in
months under condition that he can-
not return.

He managed then as usual to elude
the officers, but this morning the suit
he followed a young lady residing at
the Massman home on Washington
street, from the car. The young wom-
an made her way to a neighbor's
house and sent for the police, after
the prowler had been observed to
cross the street and change the suit
he was wearing for an old pair of
overalls and old cap to replace his
hat.
